THE GREAT WAR.

RUSSIA ABANDONS RIGHT OF SEARCH.

Seized German and British Vessels Are Ordered Released at Once.

Grand Duke Alexis Presides Over the St. Petersburg Council Which Resolves on Heroic Treatment of a Bad Case—Volunteer Fleet to be Ordered Out of the Red Sea—Battle Outside of Newchwang.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 24.—[By Atlantic Cable.] Grand Duke Alexis presided at yesterday's council, which Count Lamsdorff, the Foreign Secretary, and Vice-Admiral Avellan, Chief of the Admiralty Department, and other high naval officers attended. The result of the conference removes all doubt concerning the present attitude of Russia with regard to the volunteer fleet. The validity of the view expressed in the British note regarding the irregularity of the position of the vessels was so far admitted that the council agreed to waive the right of search.

After a long discussion, in which Count Lamsdorff took a leading part, it was decided that the present status of the volunteer fleet was not sufficiently well defined, according to international law, to render further searches and seizures advisable, and that therefore Russia, in the interests of friendly relations with the powers, should withdraw the authority given the volunteer fleet in this respect.

NECESSARY ORDERS SENT.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 24.—Orders have been sent to the volunteer fleet steamers St. Petersburg and Smolensk to refrain from interferences with foreign shipping. It is expected these steamers will eventually join the Baltic fleet, and be replaced by ordinary warships.

WILL QUIT THE RED SEA.

[BY THE ASSOCIATED PRESS—P.M.]

SUEZ, July 24.—It is rumored here that the Russian Consul is about to charter an Egyptian steamer to convey orders to vessels of the Russian volunteer fleet to quit the Red Sea forthwith.

LIBERATION OF THE MALACCA.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 24.—It is now stated that the liberation of the Peninsular and Oriental steamship Malacca will occur at Algiers.

ORDERS RUSSIAN FLAG DOWN.

[BY THE ASSOCIATED PRESS—P.M.]

BERLIN, July 24.—The Russian government has ordered the immediate release of the Hamburg-American line steamer Scandia which arrived at Suez yesterday flying the Russian naval flag and manned by a Russian naval crew.

RELEASE OF THE SCANDIA.

[BY THE ASSOCIATED PRESS—P.M.]

PORT SAID, July 24.—The Hamburg-American line steamer has been released. The Russian crew which manned her has landed here, and will proceed to Odessa by the next mail boat. The Scandia is awaiting orders from her owners.

HIGH-HANDED SEIZURE.

[BY THE ASSOCIATED PRESS—P.M.]

BERLIN, July 24.—A dispatch from St. Petersburg says that Russia, in response to Germany's protest, sent a dispatch to Port Said today ordering the immediate release of the Hamburg-American line steamer Scandia, which had arrived there and was awaiting instructions.

The official report of the seizure of the Scandia received from the German Consul at Suez says that the Russian volunteer fleet steamer Smolensk encountered the vessel at the island of Perim, in the Straits of Bab-el-Mandeb, and that she was seized notwithstanding the fact that her captain showed from the manifest that there was no contraband of war on board.

Twenty-five Russian officers and seamen were on board the Scandia when the report was sent, and it was the intention of the Russians that the passengers and a portion of the German crew should be landed at Port Said.

SHOT AT STEAMER ARDOVA.

[BY THE ASSOCIATED PRESS—P.M.]

PORT SAID, July 24.—Advices received here say that the Russian volunteer fleet steamer Smolensk fired three blank shots across the bow of the British steamer Ardova, the cargo of which consists of coal and explosives, and the vessel not stopping, the Smolensk sent two loaded shots at her, one of them passing over her amidships and the other over her stern. The Ardova was then seized, and her crew transferred to the Smolensk. The vessel will be brought to Suez.

[The Ardova, Capt. Smith, sailed from New York June 15th for Manila. She arrived at Port Said July 11th.—Associated Press.]

TURKISH COMPLAISANCY.

[BY THE ASSOCIATED PRESS—P.M.]

CONSTANTINOPLE, July 24.—It is stated that as the result of proposals made by Sir Nicholas O'Connor, the British Ambassador, Tewfik Pasha, the Foreign Minister, has given the necessary orders to prevent any attempt which may be made to take the Peninsular and Oriental steamer Malacca or the Russian volunteer fleet steamers St. Petersburg and Smolensk through the Dardanelles into the Black Sea.

SANK AN AMERICAN STEAMER.

[BY THE ASSOCIATED PRESS—P.M.]

YOKOHAMA, July 25.—The Vladivostok squadron yesterday sank the American steamer Knight Commander, from New York, of the Province of Izu, after transferring the crew of the Knight Commander of the steamer Tsinan which arrived here this morning.

The Vladivostok squadron also captured a German vessel, believed to be the Arabia, with 30,000 tons of flour, and an unknown British steamer The two vessels were sent to Vladivostok in charge of prize crews.

The American Trading Company are the agents here for the Knight Commander.

GETTING OUT OF NEWCHWANG.

RUSSIANS DESTROY PROPERTY BEFORE EVACUATING.

In Saturday's Engagement the Russian Losses Were Seven Hundred—Mikado's Forces Grouped Eastward of Liao Yang—Japan and the Dardanelles.

[BY THE ASSOCIATED PRESS—P.M.]

TIEN-TSIN, July 25.—[By Asiatic Cable.] In accordance with orders issued by Gen. Kouropatkin, the Russians commenced to evacuate Newchwang yesterday (Sunday.) This morning the Russian railway station is in flames. The Russians are evidently destroying property previous to evacuation.

RUSSIAN LOSSES SATURDAY.

[BY THE ASSOCIATED PRESS—P.M.]

TIEN-TSIN, July 24.—[By Asiatic Cable]. News has reached here that a battle is raging outside of Newchwang. The fighting can be seen from the housetops.

In the engagement of yesterday, the Russian losses are reported to have been 700. The Japanese are slowly nearing Newchwang. Great excitement prevailed in that city during today's and yesterday's fights.

MIKADO'S FORCES GROUPED.

[BY THE ASSOCIATED PRESS—P.M.]

LIAO YANG, July 22.—[Delayed in Transmission.]—The Japanese forces to the eastward are grouped at Liao Kho, Fenskui and Sigow Lin Passes. The southern army is at Siu Yen, in close touch, and apparently awaiting developments. Yinkow is quite free from Japanese troops, who have made no attempt to occupy.

SUNK JAP MERCHANTMAN.

[BY THE ASSOCIATED PRESS—P.M.]

TOKIO, July 24, 6 p. m.—The Russian Vladivostok squadron has sunk the merchantman which it captured off the east of Izu Province today. The name of this ship and her nationality is not known, and nothing has been learned of the fate of her crew.

Witness on shore saw the merchantman following the fleet. Then they saw her fired upon, after which she disappeared.

The Russian warships were last reported at 11 o'clock this morning to the southwest of Cape Iro, Izu province, steering to the west.

[Cape Iro is about sixty-five miles southwest of Yokohama and about fifty miles from the entrance to the bay upon which Yokohama and Tokio are located.—Associated Press.]

PASSAGE OF DARDANELLES.

JAPAN KEENLY INTERESTED.

[BY THE ASSOCIATED PRESS—P.M.]

TOKIO, July 24. 7 p. m.—[By Asiatic Cable.] The passage of the Dardanelles by the Russian volunteer fleet steamers, the seizure of German mail, and the capture in the Red Sea by Russia of the Peninsular and Oriental steamer Malacca have attracted great attention throughout Japan. The government is watching the situation keenly, but it has not given and form of expression to its views, or indication that it will take any action in the matter.

The editors of the Tokio newspapers have met and passed a resolution declaring that the passage of the Dardanelles by the Russian ships is a violation of treaty obligations and an insult to all of the powers; that the seizure of ships by the Russian volunteer vessels jeopardizes the interests of all neutral powers, and that Rus-

POLITICAL.

ILLINOIS ALL RIGHT.

"Uncle Joe" Talks of Campaign.

The President Very Popular With the Masses of the Middle West

Cowardice of Hill's Democrats Has Disgusted Many "Jeffersonians."

Wisconsin Delegates to St. Louis Admitted State is Republican.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] "Uncle Joe" Cannon, bronzed and genial as ever, had another long conference with Secretary Cortelyou, chairman of the Republican National Committee, today. He refused to discuss the nature of the conference, but talked freely of the Presidential outlook.

"The Republican party is united and enthusiastic in Illinois," he said. "The nomination of Dineen for Governor has cemented all factions, and the Democrats might as well spend their campaign fund in some other State. Personally, President Roosevelt is very popular with the masses, who trust him as a man of high ideals, devoted to the people's welfare, and intensely patriotic. He is sure of a tremendous majority in Illinois.

"The same conditions prevail largely in other Middle Western States. The agricultural vote is dominant in Ohio and the Northern Mississippi Valley, and the farmers there are prosperous under the Republican administration of the last eight years, as never before. They, as well as the manufacturers of the country, see no reason for not 'standing pat.' The cowardice of our Democratic friends on the money question is going to lose them thousands of votes. The radicals are sore, as well as gold men, so the prospects are surely discouraging for the Democrats."

According to Cortelyou's advices, conditions in Illinois, where a most popular Chicagoan has been nominated for Governor on the Republican ticket, where the action of the Hopkins-Cable machine in over-riding the Democratic majority by gavel rule has made it odious to voters, and where Mayor Harrison's friends will knife the ticket, make that State as safely Republican this year as Pennsylvania. Nothing can endanger President Roosevelt's chances in Illinois.

At St. Louis, Wisconsin machine Democrats privately reported that the La Follette-Stalwart battle not only would not hurt the national Republican party, but would give the President as big a plurality as President McKinley got, if not a bigger one. Nobody can drive votes away from Roosevelt in that State. Wisconsin is as safely Republican as Iowa.

WILL TELL ON TAGGART.

JONES AND A "BLUNDER."

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, July 24.—[Exclusive Dispatch.] An interesting bit of gossip concerning the meeting of the Democratic National Committee at New York Tuesday has been current in Washington all day. Senator Jones believes that Taggart's selection as manager of the Democratic campaign would be a monumental blunder, which

DEMOCRATS RAISING CORRUPTION FUND.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, July 24.—[Exclusive Dispatch.] Illinois Democrats want $600,000 as a campaign fund to carry the State for Parker. John P. Hopkins and National Committeeman Sullivan left for the East today to attend the meeting of the National Committee, and it is said their intention is to declare this amount is needed to put Illinois in the Democratic column.

The significance of the proposed demand is that the Democrats expect to raise a vast sum to conduct the campaign, and that no stone will be left unturned to defeat President Roosevelt. Mayor Harrison will be asked to raise $100,000 for use in Chicago. If he fail in this, his political opponents in his own party will prefer charges of disloyalty to the ticket and will try further to destroy the Mayor's prestige in his own city.

DID NOT INVITE PARKER.

Mayor Harrison said today that he had authorized none of his friends to go to Esopus to invite Judge Parker to participate in the Chicago Democratic demonstration, to be made August 20.

Bryan, who was in the city for a short time, intimated strongly that he did not expect to make many speeches in the campaign. He gave as an excuse that he has so many engagements at Chautauquas that little time will be left for him before late in September for political addresses. He expects to make some speeches for Folk in Missouri, but further than that his plans are indefinite.

would not only embarrass Judge Parker and his friends, but might render Democratic success impossible.

Senator Jones will appear before the new committee at the Hoffman House Tuesday, and urge its members to withdraw their indorsement of Taggart. He will tell the committee plainly and unequivocally all he knows about Taggart's personal and private affairs, and is of the opinion that the committee will ask Taggart to stand aside.

In this conclusion, the Senator is probably wrong, for the reason that every member of the committee who voted for Taggart at St. Louis was in possession of the details of the story Jones is going to tell before he voted.

PARKER'S EMBARRASSMENT.

HE'S INVITED TO CHICAGO.

[BY THE ASSOCIATED PRESS—P.M.]

ESOPUS (N. Y.) July 24.—Judge Alton B. Parker, Democratic candidate for President, did not accept, nor did he decline an invitation presented to him today to speak at a Democratic ratification meeting to be held in Chicago August 20, when William J. Bryan will be one of the speakers.

A delegation representing Mayor Carter H. Harrison arrived at Esopus at 2:45 o'clock p.m. It consisted of E. M. Lahiff, secretary of the Cook County Democratic Club, under whose auspices the meeting will be held; Oscar F. Mayer, president of the United German Society, and Lawrence E. McGann, Comptroller of Chicago. The visitors were driven to Rosemount, where they had dinner with the judge and his family. After the meal Judge Parker and his guests discussed the purpose of the visit at length.

Judge Parker told Lahiff, who acted as spokesman, that to accept the invitation at this time might cause him some embarrassment, and he did not feel like promising to attend any event of that character, at least until after the notification ceremonies had taken place. He did say, however, that if he accepted any invitations at all he would visit Chicago.

What gave Judge Parker greater satisfaction than he derived from the invitation was the assurance that differences between opposing factions in the Illinois Democracy would be entirely settled and that the party in that State would present a solid front for the national ticket. It was stated in the conversation between Judge Parker and the Illinois delegation that the ill-feeling engendered as the result of the contests between delegations seeking seats in the St. Louis convention would be eliminated absolutely. This information coming from representatives of Mayor Harrison proved reassuring to Judge Parker, inasmuch as it is taken to mean the healing over of the dispute between Mayor Harrison and John P. Hopkins, who, in all probability, will have charge of the campaign in Illinois. It is argued here that if Mayor Harrison says harmony, then the warfare between the factions headed by Hopkins and Harrison is at an end.

After the conference at Rosemount, Lahiff said he had not expected an immediate answer from Judge Parker on the question of going to Chicago, but that it had been the purpose of the Cook county Democrats to let Judge Parker know that he had nothing to fear in the campaign as the result of differences that occurred at the Illinois Democratic convention.

"We will go ahead with our arrangements for August 20," said Lahiff, "and we hope Judge Parker will be present. In any event, there will be a rousing meeting in the interests of the Democratic ticket. We expect to carry Illinois this fall.

"Judge Parker's extreme courtesy to Mr. McGann, Mr. Mayer and myself was vastly beyond our expectations. Our mission, of course, was not confined to the mere presenting of an invitation to a meeting; but, for obvious reasons, I cannot go into details. It is sufficient to say that our visit has been all that we could desire it to be and more. Judge Parker will come to Chicago if he speaks anywhere away from home."

The members of the Chicago party left at 4:45 o'clock for Albany. The delegation will go west without calling on Democratic leaders now assembling in New York.

Judge Parker and all the members of his family attended divine services today in Kingston. There were few callers at Rosemount during the afternoon.

POLITICAL STRAWS.

BABCOCK AND OVERSTREET.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, July 24.—Joseph W. Babcock of Wisconsin, chairman, and Jesse W. Overstreet of Indiana, secretary of the Republican Congressional Committee, arrived in New York tonight, and tomorrow will open headquarters in the St. James Building, No. 1133 Broadway. They intend to begin active work at once. Secretary Shaw was in the city tonight on his return from Oyster Bay.

DEMOCRATIC COMMITTEEMEN.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, July 24.—Several members of the Democratic National Committee arrived in New York today. All of them called on Taggart at the Hoffman House, and none of them seemed to think there was the least doubt about Taggart's election as chairman. The Nebraska member, J. C. Dahlman, talked very confidently about the possibility of carrying that State for the Democratic ticket, and said that if the Legislature was Democratic, W. J. Bryan would be elected United States Senator.

There was some gossip among the members of the committee about the election of other officers. C. F. Walsh of Iowa, former secretary, and Urey Woodson of Kentucky are candidates for secretary, while it seems to be considered probable that August Belmont will be the treasurer.

TAMMANY IS WARY.

In Spite of Parker's Pledge of "Pie" for the Tiger the Latter Yearns for the Political Carcass of Hill's Candidate.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] The beginning of the third week following the St. Louis convention finds the Democratic situation practically lifeless. Never before in the history of Tammany Hall did that organization let two weeks go by without a rousing whoop-up for a Presidential candidate and the throwing of its banner to the winds. Probably Leader Murphy and Candidate Parker will get together for a conference this week, but Murphy's absence and utter silence thus far can only indicate one thing, namely, Tammany is waiting for Parker to explicitly state his attitude toward the organization before getting wildly hilarious over his candidacy. If Murphy receives the desired assurances, Tammany will take off its coat and go to work. If not, Tammany will fling its banners to the wind and make a great pretense of "regularity," but will give Dave Hill the laugh after election day.

TOO MUCH "GUM SHOE."

But Parker, it is believed now, will surely come to a satisfactory agreement with Murphy and the most corrupt political organization in the United States, even as a tentative agreement has already been reached. In many respects Parker has given evidence of having been a prize pupil in Hill's gum-shoe political school, and conservative Democratic organs, like the Post and Brooklyn Eagle, no longer indulge in ecstatic hysterics over the heroic Sage of Esopus.

Reading between the editorial lines of these respectable papers, one cannot help believe that the suspicion lurks in the editors' minds that the judge is more of a politician than a statesman. While there is no more gush about the message that "saved the Democratic party from itself," Parker organs are replete with warnings to the candidate against the dangers of making an unholy alliance with corrupt Tammany. These are the organs which, in large measure, represent the views of the ultra-conservative gold wing of the New York Democracy.

The situation resolves itself into this: Will Parker heed the advice of the Post, Times and Eagle, and stick to Hill, Belmont and McCarren, who made his nomination possible, or ignore their advice and go over bodily to Tammany? The answer most probably is in the undoubted fact that Tammany has the votes, and without the votes Parker cannot carry New York. Without New York, his election is absolutely out of the question.

COLD DOUCHE FOR GOLD.

Cold facts have thrown cold water on the assumption of Parker's heroism following his gold message. The simple chronology of events has led to the general conclusion that it was a trick of a wily politician. Hence, the apathy which has been growing day by day, since the St. Louis convention and the suspicious tone of the organs which were loudest in their heroical hysteria.

PARKER'S PREDATORY GANG.

Parker was shrewd enough politician to gather around him the most powerful aggregation of predatory capital this country has ever seen, banded together for the purpose of getting control of the government. He was clever enough to put in charge of his financial campaign the genius of the Cleveland bond syndicate, the master mind of the huge street-railway organization that is now merging New York City transporation into one monopoly, the head of one of the biggest railroad brokerage and banking houses in Wall street. Parker was brilliant politician enough to get August Belmont, as a guarantee to the Northern Securities merger-makers and coal trusts that he would be "sane and safe" on all matters affecting their right to maintain private monopolies without Federal interference.

MIXES SUGAR AND GAS.

Parker was practical politician enough to know that a huge campaign fund would be required in New York, if he was to have half a chance to carry it, and his selection of Cord Meyer, Jr., of the sugar trust, as State chairman, and Patrick Henry McCarren of the sugar trust and gas trust, and William F. Sheehan of the traction syndicates, as his assistants, was nothing less than Napoleonic.

Parker was diplomatic enough to keep David Bennett Hill in the strategic direction of the purely political details of his canvass, while yet refraining from putting the detested "peanut truckster" too far to the forefront, and was capable of openly humiliating his political valet by sending the famous gold telegram to William F. Sheehan. The candidate now speaks soothingly through his organ, "deprecating any adverse comment on Hill's course at St. Louis," and assuring the public he has "only sympathetic appreciation (naturally) of Hill's friendly effort."

MURPHY NOT TALKATIVE.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] Tom Taggart and his chances of becoming national chairman were relegated to a position of secondary importance in Democratic politics today by the arrival of Charles F. Murphy. The Tammany leader at once took the center of the stage, interest in his return having been heightened by the report that he was to go to Parker's home in a few days to ratify the peace treaty negotiated by his envoys.

Murphy was hardly less reticent than usual, when questioned about his plans. He declined to discuss his attitude toward Parker until he had seen Senator Dowling and certain other of his lieutenants and had heard their reports.

"Will you see Parker on Wednesday?" was asked.

"I don't know," he replied.

"Hasn't that day been set for the meeting?"

Murphy evaded a direct answer by saying he did not know whether the day named would be convenient to Parker.

"How about you? Would it suit you?" was asked of Murphy.

"Yes," he replied, "one day would suit me as well as another."

MAYOR M'CLELLAN'S BID TO PARKER.

[BY DIRECT WIRE TO THE TIMES.]

ROSEMOUNT, July 24.—[Exclusive Dispatch.] Facts throwing new and surprising light show that Edward S. Rapallo, a Tammany man and lawyer, at No. 66 Broadway, wrote to Parker, July 12, on behalf of Mayor McClellan, asking that the Democratic Club of Manhattan be permitted to give the first dinner and reception in honor of the candidate.

It was J. Sergeant Cram who gave Rapallo authority from McClellan and Murphy to write this letter. Rapallo is a friend of Judge Parker. Under the arrangement proposed by Tammany men, Parker was to invite to dinner such friends as he liked, and McClellan was to have Murphy, Corporation Counsel Delany, Bourke Cockran, Cram, Senator Dowling and Deputy Commissioner McAvoy present. This letter told the Judge that the Mayor strongly desired to meet him immediately, and Rapallo hinted that the Mayor and Murphy wanted to hold a conference with him in the course of that week.

Rapallo asked for an early answer, so that Murphy could be summoned back to New York from Mount Clemens, to which place he was then on his way. Judge Parker did not reply immediately, and the exact nature of the answer he did send is not known. It does not seem, however, to have been satisfactory.

August Belmont and Bourke Cockran were acquainted with the contents, and it is said that when they visited Rosemount together, both asked Judge Parker to write to McClellan.

CHANLER A CANDIDATE.

[BY DIRECT WIRE TO THE TIMES.]

POUGHKEEPSIE (N. Y.) July 24.—[Exclusive Dispatch.] William Astor Chanler, the millionaire author and traveler of New York, has declared himself a candidate for the Democratic nomination for Governor. His boom was launched today in an authorized statement in the Poughkeepsie Courier.

Chanler is 37 years of age, and first came into prominence by spending three years in the scientific exploration of Africa. He wrote a book of travel and was made a member of the prominent geographical societies of the world. During the Cuban struggles for freedom he assisted the patriots at great personal risk and by large subscriptions. He served through the war with Spain on the staff of Gen. Wheeler, and was present throughout the struggle around Santiago.

In 1896 he was nominated for Congress from the Fourteenth New York District, his opponent being Lemuel Eli Quigg, admittedly the strongest candidate who at that time could have been put forward against him. Chanler defeated him by 6400 votes. Two years before, Quigg carried the same district by 12,000 votes. Chanler refused the nomination in 1900, as his business interests required attention.

BRYAN WILL NOT SPEAK.

Mayor Harrison's Effort to Get Him on the Platform With Parker Fails.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, July 24.—[Exclusive Dispatch.] William Jennings Bryan yesterday announced that he would not be one of the speakers at the big rally to be held by the Harrison forces at Riverview Park, August 20. Bryan was to have been the star attraction, and his decision was reached yesterday after a conference with the Mayor. Bryan made the positive declaration that he would not speak at the picnic. His declaration was a blow to the Mayor and his friends, as they were counting on Bryan as their main speaker.

Harrison's lieutenants had advertised the outing far and wide and had positively stated that the twice-defeated candidate for the Presidency would be the principal speaker at it. They had even asserted that it was probable that Judge Parker would be present, and that the present and former candidates of the Democratic party for Presidential honors would speak from the same platform.

It had been insisted by the anti-Harrison Democrats that the picnic was not intended as a political demonstration, but rather as a means of raising campaign funds. Whether this influenced Bryan in his decision is not known.

PARKER'S NEIGHBORS.

WILL KEEP HIM BUSY.

[BY THE ASSOCIATED PRESS—P.M.]

ESOPUS, July 24.—It is the purpose of Republicans of Ulster county living in Kingston, Esopus and surrounding villages to make Judge Parker's home county one of the principal fighting grounds in the New York State campaign. To offset the effect of having an Ulster county Democrat at the head of the national Democratic ticket, the New York Republican leaders will be asked to look kindly upon the plan to name Judge A. T. Clearwater of Kingston as the Republican candidate to succeed Judge Martin on the Court of Appeals. Judge Martin will retire under the age limit, and his successor will be named this fall. Judge Clearwater enjoys great loyal popularity, and the Republicans of Kingston and vicinity argue that if the county is to be kept from the Democratic column it must be accomplished by placing on the ticket the name of an Ulster county man.

The paths of Judge Parker and Judge Clearwater have run parallel for many years. They studied law together, and have occupied pews in the First Dutch Church. In 1877, Parker was elected Surrogate and Clearwater, District Attorney, and in 1883 both were re-elected. In 1885, Parker was elected Supreme Judge; in 1889 Clearwater was elected County Judge and re-elected in 1895. In 1897 Parker was elected Chief Judge and in January, 1898, Clearwater was appointed to the Supreme Court vacancy. In the fall of the same year he was defeated for the Supreme Court bench in the district. Clearwater has always carried Ulster county in every contest he has engaged in at the polls.

"Grandpa" Was Surprised.

BEDFORD SPRINGS (Pa.) July 24.—Things politically at Bedford Springs today were very quiet. Ex-Senator Davis accompanied his family to the Presbyterian Church this morning. In conversation with a friend today he said he was very much surprised when he received the news that he had been nominated by the St. Louis convention for Vice-President. Col. Guffey, before his departure for New York to attend the conference today, said that the New York leaders would accompany him on his return to Bedford Springs to see Davis before he takes his departure for his home at Elkins, W. Va., next Thursday.

THE VERY LATEST.

WAR NEWS AFTER MIDNIGHT.

LIAO YANG, July 21, 11 p. m. —[By Asiatic Cable.] [Delayed in Transmission.]—Yesterday eight Japanese cruisers, accompanied by transports with troops, were seen approaching Yinkow.

South of Ta Tche Kiao the Japanese are busily moving forward. The Russians are expecting a big advance from the south.

Gen. Kouropatkin today inspected troops arriving from Russia.

The Russian East Companies on the left are constantly engaged in skirmishes with the Japanese, who suffer heavily. The Russians thus far have destroyed four guns.

YINKOW FOR A BASE.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 25, 4:39 a. m. The reported appearance of Japanese cruisers and transports off Yinkow, coupled with foreign telegrams telling of heavy fighting in that region, bear out the intimation conveyed in the mutilated dispatch from Ta Tche Kiao to the Associated Press, mentioned in these dispatches yesterday morning, that serious movements have been undertaken by the Japanese to gain this coveted base on the northwest coast. It should be pointed out that there is an apparent conflict between the dispatch from Ta Tche Kiao and that received from Liao Yang under date of July 22nd, saying that all was quiet at Yinkow on that date, but it is possible that, owing to the pressure on the telegraph at the front, there may have been a confusion of dates.

Should it develop that the Japanese are now making a determined attack on Yinkow, it would throw fresh light upon the heavy land movements of the Japanese to the northwest within the past few days. The menacing attitude of the Japanese on Lieut-Gen. Count Keller's front may possibly have drawn north a considerable Russian force. Certainly it has distracted public attention for the time from Yinkow, but whether it has affected Gen. Kouropatkin's estimate of the situation may be proved by the nature of the defense that will be made at Yinkow.

It seems to be fairly certain that sharp fighting is now in progress in that region, though Gen. Sakaroff's report received last night throws little light on the actual situation. This report states that the Japanese commenced to push forward from Kaichou on the morning of July 23rd and forced the retirement of the Russian rear guard to Ta Tch Kiao, while a simultaneous Japanese advance began from the valley of the Sachia, on the east, apparently also directed against Yinkow by way of Ta Tche Kiao. Though Gen. Kouropatkin was reported to be inspecting the troops at Liao Yang July 21st, he was easily in touch with his threatened front, and detailed news from him bringing affairs up to a later date is awaited with the greatest intrest.

JAP ARMY AT SAIMATZA.

[BY THE ASSOCIATED PRESS—P.M.]

SINTZINTIN, (seventy miles east of Mukden,) July 24.—According to Chinese information, 30,000 Japanese with 35 field and 200 mountain guns have reached Saimatza from the south and have occupied the district covered by Saimatza, Izyanchan and Saiober. Four companies of Russian cavalry and one company of infantry with two guns, came in contact with the Japanese advance at 7 o'clock on the morning of July 22nd and discovered that the Japanese, 1,000 strong, were advancing a mile and a half from Izyanchan. The Russian guns checked the Japanese advance, but heavy reserves coming up, the Russians retired to a side road near Uitzintzin to save themselves from being cut off. The Japanese, however, did not continue to advance.

The Chinese state that the Japanese troops numbered 8000. The Russian losses were one officer and four Cossacks wounded and a few horses killed.

Chinese scouts state that the Japanese are apparently establishing a base in Korea near the Yalu River, and that there have been large movements during the last few days from the armies of Gen. Kuroki and Oku to Antung on the Yalu River.

GERMAN STEAMER FIRED ON.

[BY THE ASSOCIATED PRESS—P.M.]

CHEFOO, July 25.—Noon.—The German steamer Chefoo from Newchwang, reports that at 2 o'clock this morning, when she was 50 miles from this port, she was stopped by four Japanese torpedo boats and searched. After being released she was fired on by rapid-fire guns.

NEW ENGLAND SOLID FOR THE PRESIDENT.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] The Press says:

"Democratic rainbow chasers who persist in speaking of Connecticut as one of the States likely to be carried by Parker are self-deluded mortals, in whom the wish entirely swallows up the thought. It is true that since 1872 the Democrats have four times carried Connecticut in national elections—once for Tilden and three times for Cleveland. But in one of these elections the Cleveland plurality was only 336, and the aggregate of Republican pluralities for Presidential years, beginning with 1872, totals 89,531, against Democratic pluralities aggregating only 11,745.

"To deal only with recent years, in the last two Presidential elections Connecticut has gone overwhelmingly Republican and the Republicans have been successful in elections in off years, when no national issue was involved. The Democratic candidate for Governor in 1892 much resembled Parker, in that he was reputed to be a 'conservative,' man and was the candidate of the capitalistic classes. Yet Chamberlain, the Republican candidate, beat him handsomely. Last fall's town elections in the State gave no indications of a falling-off in the Republican strength, and, in short, there is not a solitary fact or circumstance upon which the Democrats are warranted in building their hopes of carrying the State in the approaching Presidential contest.

"Republican sentiment has been steadily growing in Connecticut for the past few years, and to call it a doubtful State is to indulge in 'pipe dreams.' New England may be counted upon as absolutely 'solid' for Roosevelt."

WESTERN HEADQUARTERS.

WILL BE OPENED WEDNESDAY.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, July 24.—[Exclusive Dispatch.] Dover will arrive in Chicago Wednesday and will immediately open the western headquarters, which are to be located on the parlor floor of the Auditorium. Chairman Cortelyou will join the secretary of the committee in Chicago not later than Saturday, and will remain in the West until he has given the campaign a good start.

It can be stated on the highest authority that Chairman Cortelyou has not interfered, directly or remotely, in the Wisconsin imbroglio, and does not expect to do so. He has not called for a conference between himself and representatives of the warring factions, and will not unless they unite in a call urging him to take a hand.

BOOSTING GEORGE TURNER.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) July 24.—[Exclusive Dispatch.] The nomination of former United States Senator George Turner for Governor by the Democratic State convention at Bellingham, next month, was foreshadowed and made certain by the county conventions held yesterday in all parts of Washington. Democratic sentiment was strongly in favor of Turner when he went to St. Louis as candidate for the Vice-Presidential nomination. On his return he consented to become a candidate. By nominating Turner on a platform pledging creation of State railroad and tax commissions, the Democrats hope to carry the State.

Eighth Texas District.

HOUSTON (Tex.) July 24.—Two conventions were held by the Democrats of the Eighth Congress District. One of them nominated Congressman John M. Pinckney for another term. The other perfected organization and adjourned until after the State convention without making a nomination. This convention favors O. T. Holt of Houston.

Committee Went Astray.

SCRANTON (Pa.) July 24.—Owing to conflicting announcements regarding the place of meeting of the Central Labor Union Committee to receive the report of the committee that went to President Roosevelt on behalf of the Colorado miners, the meeting did not take place today. Half the committee went to Pittston and the other half assembled here. The meeting will be held here next Sunday.

GEN. ALFARO RESIGNS.

GUAYAQUIL (Ecuador) July 24.—Owing to a disagreement between President Plaza and Gen. Flavio Alfaro, Secretary of War, and a candidate for the Presidency of the republic, the latter has resigned his portfolio. Gen. Rafael Arellano has been appointed to succeed Gen. Alfaro.

Important Seizure of the Redbank Distillery.

Six Thousand Gallons of Unstamped Stuff Taken.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, July 24.—[Exclusive Dispatch.] The largest seizure of illicitly-distilled brandy that has been made in California since 1889, when the noted Calaveras seizure was made, was accomplished by B. M. Williams, internal revenue agent of San Francisco and Agent Frank R. Wood of San Francisco and Sheriff T. Williams of Seattle. The distillery and vineyard just seized is the property of a vineyard and distillery owned by Mary Mette of Sacramento, near the Folsom Ravine mine, in the foothills about 15 miles from Folsom. Six thousand gallons of fine brandy worth $6 a gallon was seized, and the entire distillery and plant has been declared forfeited to the government.

Some time ago, the suspicions of the officers were aroused by some mysterious parcels of fine brandy floating around and selling below the usual rates. Williams saw some of the brandy at Seattle, and looked into its history. He was detailed by Thomas to make a search. He visited Sacramento, Rio Vista and several other places. He was convinced there was some irregularity at Redbank Distillery, so Thomas, Williams and Drisdale went to the distillery to investigate.

After learning that the distributing point for the illicit brandy was from the house of W. A. Steinkamp, son-in-law of Mette, who lives in Sacramento, Williams was to the Steinkamp place in this city that Williams traced the illicit goods. He learned that the brandy had been hauled down to Sacramento from the vineyard, by wagon, and it thereby escaped the eyes of the railroad employes, who will not accept more than five gallons of unstamped brandy. At the distillery, the officers found one cask marked "Zinfandel" which contained California grape brandy on which the tax had not been paid. When the search was concluded, 6000 gallons of brandy, worth $16,000, [illegible]

Some time ago, the suspicions of the revenue officers were aroused by some mysterious parcels of fine brandy floating around selling below the usual market rate. Williams saw some of the stuff in Seattle, and looked into its origin. He was detailed by Thomas Harris, chief deputy collector, to make a search. He visited Sacramento, Elk Vista and several other points. He was convinced there was some irregularity at Redbank Distillery, and sent Thomas, Williams and Driscoll to the distillery to investigate.

In learning that the distributing agent for the illicit brandy was from the house of W. A. Steinkamp, son-in-law of Mette, who lives in Sacramento, the men went to the Steinkamp place in this city. SAN FRANCISCO, July 24.—The jury in the Eppinger case did not report to the court today, and is still confined at the Palace Hotel in charge of a deputy sheriff.

SCHEME OF THE REDS.

Dangerous Anarchists Are Said to be Seeking Entrance as Members of the Salvation Army.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON (Mass.) July 24.—[Exclusive Dispatch.] It is said that dangerous anarchists are endeavoring to gain entrance into the United States disguised as members of the Salvation Army. Some are said to be on their way to this port and extra precautions will be taken by the authorities to keep them from landing.

The anarchists thus disguised expect to pass in safety the official gauntlet of the immigration inspectors and join their brethren at Paterson, Hoboken, New York and this city. That it is a concerted scheme would seem evident, for the anarchists in this country are said to be in the secret, and have talked about it, and the talk has reached the ears of the government agents. Secret service men abroad have also heard something of the scheme and warned the United States authorities. It is said that orders have been issued to all immigration officers in the country to watch for Salvation Army arrivals and make sure that they are genuine.

A.O.H. OFFICERS.

ST. LOUIS, July 24.—The Ancient Order of Hibernians adjourned last night after electing officers and selecting Saratoga Springs as the place for the next biennial convention in July, 1906. President James E. Dolan of Syracuse, N. Y., was reëlected, and D. J. Hennessey of Butte, Mont., was chosen a director.

TH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, July 24.—[Exclusive Dispatch.] Chicago's cool spell is to be broken tomorrow by a rise, the Weather Man said today. Today was comparatively cool, with a maximum temperature of 74, a minimum of 65 degrees. On the lake front it was chilly, and excursion passengers acquired blankets.

HEAT AFFECTS HEALTH.

Two days of excessive heat, last week, had a disastrous effect on the health, increasing the total from 416, the week before, to more than 29 per cent. The increase almost entirely among children under 5 years of age, 212, as against 164 the week before, the .17 succumbed as from sunstroke, accounting for the remainder.

MARRIAGE CRAZED HIM

Because his father married for the third time, William Steinbrecher, 21 years old, is in the Detention Hospital a maniac. Saturday he arose from bedstead, and with the end of it attacked his father and would have killed him, had not assistance arrived. Young Steinbrecher is exceedingly bright. For several years he was employed at the Chicago postoffice as a sorting clerk.

DOWIE MAKING MINISTERS.

John Alexander Dowie announced at Zion City today that he would take one child out of every ten among his followers to be trained for the ministry. These are to be selected at the age of 10, and are to be the most perfect children to be found, mentally, morally and physically. At that age they are to be put into a school where they will be trained in the Gospel, in gymnastics, and educated and cultivated as fully as possible, and will be overseers.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 24.—Lieut.-Gen. Sakharoff, in a dispatch to the General Staff, dated July 23, reports skirmishes in the vicinity of Kaichou July 22. Lieut.-Gen. Count Keller's reconnoissances on the same day showed that the Japanese had only weak detachments at the Siao Kao and Wafankau passes. There was no change in the situation on the high road to Mukden. According to the report, strong Japanese columns with thirty guns were advancing along the left bank of the Taitse River in the direction of Siak Polan.

LABOR.

TO STRIKE IN SYMPATHY.

All Union Meat-packing Employees Quit Today.

Interested Teamsters May Also Take a Hand.

Test of Strength in the Cotton Mill Fight.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, July 24.—[Exclusive Dispatch.] The belief is strong tonight that the extended strike which is to go into effect at the stock yards tomorrow morning, when all union labor at the packing-houses is expected to walk out, will be the rock in which the beef trust will go to pieces. Schwarzschild & Sulzberger and the Cudahys are believed to be the pilots who will steer the trust to destruction. Rumors are rife tonight that these two firms will break away from the Armours, Swifts, Morrises and the National Packing Company; that they will treat independently with union strikers, will come to an agreement, reopen their plants with organized labor, and furnish dressed meats in larger quantities than ever before in the markets of the country.

It is reported Michael Donnelly, president of the butchers' organization, has received confidential advices from labor leaders in New York City to the effect that Schwarzschild & Sulzberger are disposed to treat with their men and put them back to work on terms that will be satisfactory to both sides. Donnelly declines to discuss the question, but he will not deny that such advices have been given him. M. J. Sulzberger, who has charge of the western houses of the firm, while declining to discuss the rumor at length, practically admits that they will sign an agreement.

The importance of the severance of the relations of the big packers who have stood together so firmly for years can hardly be overestimated. Such a break would accomplish more than the United States has been able to do thus far. The courts have enjoined the packers from any combination to control prices of meat and the purchase and shipment thereof, but there is every evidence that the very things at which the injunction was aimed are being done every day in the year.

CHICAGO, July 24.—Determined on a fight to a finish to enforce the demands of the striking butchers, a sympathetic strike of all the union workmen employed in the meat-packing industry throughout the country, with the exception of the teamsters, will be declared tomorrow morning at 7 o'clock. The indications tonight are that the teamsters will join the other unions Tuesday, in order to bring the packers to terms.

The teamsters employed in the Chicago plants, at a metting today, declared in favor of the sympathetic strike, but their decision has not been ratified yet by the joint council of the Teamsters' Union. The joint council will meet late tonight for the purpose of considering the proposition. The general belief is that the decision of the teamsters to join in the strike will be endorsed by the council. This endorsement of the joint council is not final, however, as the international officers of the Teamsters' Union must sanction the proposed strike before the men can leave their work. Under these circumstances, it is not likely that the teamsters will be officially called out before Tuesday.

No conferences were held today, either by the packers or the labor leaders, or jointly, in an effort to reach an adjustment of the controversy. Both sides rested today, apparently waiting for tomorrow's developments. Whether or not the packers would make any concessions to the demands of the labor leaders in order to prevent a general walk-out of the trades at the stock yards would not be discussed by any of the packing-house representatives today, but from the preparations going on at the different plants during the day, it was plainly evident that the packers intended to fight for their independence. All the labor leaders declared that they would await tomorrow's developments before considering further negotiations, and that the packers would have to make the request for a resumption of peace negotiations, as the unions had no intention at the present time of doing so.

Preparations for the struggle which is expected to reach a climax tomorrow morning were being made at the different packing plants all during the day and far into the night. Dozens of representatives of the packing-houses were scattered all over the country today in search of men to fill the places of the strikers. Four trainloads of new employés were taken into the yards before darkness set in, to join the non-union men already established inside the plants. Clerks were being initiated into new duties, and employés who had been promoted from trades were returned to their former work to take the places of the regular workers who are expected to quit work. Stockades have been erected at all the different plants to protect men whose work exposes them to danger from mob violence. All through the stock yards there were not only evidences of preparations for a long and bitter struggle, but superintendents of the packing establishments, police officers and union leaders gave expression to anticipation of troublous times to come. Chief of Police O'Neill, who spent the day making plans for tomorrow, said: "No one knows what will happen. The opportunity is here for one of the greatest labor contests in the country, and apparently there is no hope of averting it. The police will be able to handle the situation, however, without outside assistance, no matter what happens."

In addition to the four trains filled with non-union men brought into the yards today under police protection, many other trains loaded with men who had been secured during the last twenty-four hours were scheduled to arrive before daylight. With the number of men already installed within the stock yards and the addition of clerks and office men to the killing rooms, work will be resumed in all the plants tomorrow morning on as extended a scale as possible. These men will all work under police protection, and it is not believed any trouble will be experienced until the several firms begin distributing meats to the local trade with non-union drivers. It is on this apparent predicament of the packers that the labor leaders are depending for success in the struggle.

The situation makes the teamsters the most important body of men in the whole controversy. With these men on strike, the union forces expect to prevent any non-union men who take their places from leaving the yards and scenes similar to those during the "Caravan" days of the 1902 strike, will undoubtedly be the result if the strike is prolonged. Teamsters outside the yards are to be asked to refuse to handle meat from any of the branch houses, and if non-union men are engaged to perform this work riots are bound to be the result, as these branches are scattered all over the city in order to make it more convenient to supply the downtown trade.

Temporarily, the packers will attempt only to handle dressed beef, pork and mutton, allowing the by-products to go to waste. They say, however, that as fast as the necessary workmen can be obtained, these departments where the by-products are taken care of will be opened up for business.

Another handicap the packers will meet with in the morning is a scarcity of live stock. Commission men for the past week have flooded the country with messages advising shippers not to send any stock to market. It also developed today that commission men during the last week bought all the live stock they could and shipped it out to the country in the vicinity of Chicago to be fed until after the strike is settled. As soon as the strike is over, the intention is to rush this stock back to Chicago, when it is believed exorbitant prices can be obtained. An estimate of the amount of live stock in the pens of the packers tonight was 5000 cattle, 9000 hogs and 5000 sheep.

The packers claim to have nearly 5000 men with which to start operations tomorrow morning. These men are distributed among the different plants as follows: Armour & Co., 1500; Swift & Co., 1300; Nelson Morris & Co., 900; the Hammond Packing Company, 200; Anglo-American Company, 300; Libby, McNeil & Libby, 300.

A report was current tonight that Cudahy & Co. and Schwarzschild & Sulzberger would not make any effort to resume business tomorrow. Instead, according to this rumor, these two firms would make a settlement with the unions, and when they opened for business, it would be with a full force of union men. None of the officials of either of these companies would confirm or deny the report.

Settlement of the strike may be insisted upon by Mayor Harrison, if developments show that the public interests demand it. In the meantime arbitration through the good offices of the Mayor is a remedy open to the opposing sides on request from either. Such was the position outlined today by the Mayor, who was called back to Chicago from Marquette, Mich., on account of the renewal of the strike. Mr. Harrison deplored the continuation of the strike, but said that just at present he did not see his way clear toward doing anything of his own volition toward the adjustment of the trouble.

HARMONY IN NEW YORK.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, July 24.—To all outward appearances there is perfect harmony between the big packers and their employés in this city. The killing of cattle went on as usual during the five Sunday work hours in the Schwarzschild & Sulzberger plant and that of the United Dressed Beef Company. The leaders were busy holding conferences, however, and the situation in this city depends on the outcome of the conference at Chicago.

Although H. T. Eichelberger, the general organizer of the Amalgamated Meat Cutters and Butcher Workingmen, has repeatedly asserted that the big packers in this city were willing to conform with the Chicago agreement, regardless of what may be done at any future conference at Chicago, it is said by the cattle butchers that if the Chicago leaders order them out they will leave the plants, in which case a shutdown will be necessary.

ST. JOSEPH TRAGEDY.

NEGRO WOUNDS FIVE MEN.

[BY THE ASSOCIATED PRESS—P.M.]

ST. JOSEPH (Mo.) July 24.—Abe Kruse, a negro strike-breaker, was assaulted by pickets near the packing plant of Swift & Co. today and fired into a crowd of assailants, wounding five. They are:

JOE WEIGEL, shot in abdomen, may die.

JOHN JETTA, shot in body and legs.

JOE SANGER, wounded in thigh and legs.

AUGUST NEWMEYER, shot in leg.

STEVE FINNEGAN, shot in legs.

Kruse was arrested by the police and is in the County Jail. He fired but one shot. The weapon was of a magazine type, and was loaded with buckshot. The strikers say the negro passed inside the lines near the pickets, who at the time were discussing some alleged shooting by negro strike-breakers at another part of the yards last night. The negro is said to have heard a part of the discussion as he passed the pickets and to have turned to them with a warning of "Don't you talk to me."

The witnesses stated that he then passed fifty yards further inside the lines, mounted some steps at the receiving station, took aim at the group of pickets and fired, wounding the five men.

The terrible execution of the single shot is attributed to the fact that a Winchester gun was used, with heavy shot, and that at the distance of the shot the charge scattered. The negro ran at once to the plant and was lost sight of by the strikers, and the police as soon as they learned of his whereabouts refused to talk, apparently fearing an attempt at mob violence by the crowd.

The wounded men were taken at once to the offices of the Packing Trades Council, where their injuries were attended.

Kruse tonight said he fired only when he saw he could not escape, and because he thought he would be killed.

GRAND ARMY AS THE HOST.

Mosby and Other "Johnnies" to be Entertained.

Era of Good Feeling Among the Blue and Gray.

Issuance of "Fraud Order." Postal Matters.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 24.—[Exclusive Dispatch.] Col. John S. Mosby has accepted an invitation to attent the entertainment, August 15, in Faneuil Hall, Boston, when the Grand Army will act as host to twenty-five Confederate veterans.

Among the men who will welcome the Confederate guests will be Frank P. Moss, now of Boston, who was a prisoner of Col. Mosby and his men for thirteen months during the Civil War. Moss has written a letter to Mosby, urging him to attend the entertainment, that Moss may give him material proof of his appreciation of the generous treatment the former prisoner received at the hands of Confederate soldiers.

COURTS IN CHINA.

RECOMMEDATION TO BE MADE.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 24.—[Exclusive Dispatch.] Herbert H. D. Pieerce, third assistant Secretary of State, who has just returned from an inspection of the consulates in China, Japan, the Straits settlements, Ceylon, Egypt and Southern Europe, will make an important recommendation in his forthcoming report. He will advise the establishment in China of a Circuit Court consisting of one or perhaps two judges, who would set once a year at each consulate. The consols themselves would be limited in their judicial functions to courts of first instance.

Such a change would require an additional convention with China. The arguments in its behalf are that these judicial duties consume a good deal of the time which consuls can ill spare, and that in addition very few of our consuls have a proper legal training. Only one or two of our consuls in the Chinese Empire are lawyers. It is hard to get a good lawyer, with the business capacity required of a consul, to accept a position whose salary covers little more than living expenses. Great Britain has established such a Circuit Court in China, and the system seems very advantageous.

"NEW IDEA" DON'T GO.

FRAUD ORDER ISSUED.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 24.—[Exclusive Dispatch.] The Postoffice Department today issued a fraud order against the Pacific States Mercantile Company, No. 137 Montgomery street, San Francisco. This company had what is called a "new idea for small savings," whereby investors were invited to deposit $5 down and then deposit $1.50 per week for thirty weeks. At the end of that time they were to receive an order for $100 worth of merchandise, or $85 in cash. This scheme struck the postal officials as a violation of the fraud and lottery laws and a fraud order was issued.

Rural Route Service.

WASHINGTON, July 24.—[Exclusive Dispatch.] Additional rural service route No. 3 will be established at Modesto, Stanislaus county, September 1. California rural carriers appointed: Placerville, Isaac N. McCumsey, regular; Emma I. McCumsey, substitute. Whittier, Charles C. Smith, regular; Walter C. Smith, substitute.

COTTON MILL CONTROVERSY.

FALL RIVER (Mass.) July 24.—With hope of a peaceful settlement abandoned, both sides in the impending industrial trouble here await with dogged determination the coming of tomorrow and the first test of strength between a little group of manufacturers representing a combined capital of $25,000,000 on one side and more than twenty-five thousand cotton-mill operatives on the other.

The mill gates will be opened at the usual time tomorrow morning, and the operatives will be given an opportunity to go to work under a wage reduction of 12½ per cent. If an insufficient number responds the mills will be closed for an indefinite period. The strike leaders were of the opinion tonight that there would not be enough operatives applying for work throughout the entire city to run even one mill, to say nothing of the eighty or more that are affected by the strike order. The manufacturers claim that the two thousand union men who voted to strike do not represent the sentiment of the great body of cotton-mill employés. They give the total number of operatives on their pay roll as 25,630. This, of course, does not include the employés at the Independent mills of M. C. D. Borden, which are not involved.

The talk on the streets, however, indicates that the feeling against the manufacturers is quite as bitter among the non-union operatives as it is among those who are affiliated with the labor organizations.

Several small stores patronized chiefly by the operatives have been obliged to close, owing to the abrupt falling-off of trade, and on all sides an alarming decrease in business has followed the issuance of the strike order.

THE GREAT WAR.

(Continued from First Page.)

sia's action endangers the peace of the world.

RUSSO-BRITISH BASIS.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 24—The Associated Press is able to state on the highest authority that the Russian and British governments have agreed on a mutually satisfactory basis for a settlement of the question of the status of Russian volunteer fleet steamers in the Red Sea and the seizures by them of British ships. A few minor points still remain unsettled, but these will probably be cleared up tomorrow, and it is not expected that further complications will arise.

Great credit for the satisfactory termination of this incident is due to Foreign Secretary Lamsdorff, who, it is admitted, acted in the calm and conciliatory spirit worthy of a great statesman. The attitude of Sir Charles Hardinge, the British Ambassador, both for moderation and dignity also evokes praise.

In fact, the negotitations throughout the crisis were conducted in a most friendly spirit on both sides, and the story that there was a stormy scene at the Foreign Office, July 20th, when Sir Charles presented the British protest, has not the slightest foundation.

The relations between the Foreign Minister and the British Ambassador are extremely cordial. Count Lamsdorff, although he hardly goes anywhere, called at the British embassy last night, and remained a whole hour in informal chat with Sir Charles Hardinge.

SMOLENSK LEAVES JEDDA.

[BY THE ASSOCIATED PRESS—P.M.]

JEDDA (Arabia,) July 24.—The Russian volunteer fleet steamer Smolensk arrived here today, took a pilot on board and resailed immediately.

SHOULD NOT HAVE FIRED.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 25, 2:15 a. m.—The report that the Russian volunteer fleet steamer Smolensk fired shells at the British steamer Ardova is not considered likely to endanger the Anglo-Russian agreement indicated in these dispatches yesterday. It is pointed out that the Ardova had no right to refuse to stop when ordered. At the same time, it is fully realized that the captain of the Smolensk had no business to fire a shell over the decks of the Ardova.

There is considerable annoyance in naval circles over the failure of the vessels of the volunteer fleet to keep in touch with St. Petersburg by cable. Several days ago, as announced in these dispatches, orders were cabled to the St. Petersburg and Smolensk, instructing them to abstain from the further stoppage of vessels. These orders were subsequently rendered more imperative, and it is not too much to say that they took the form of a recall of both steamers. There is some anxiety lest the St. Petersburg and the Smolensk may precipitate reprisals by British warships now in the Red Sea.

JAPS FIGHTING SLAVS.

RIOT AT TREADWELL MINE.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) July 24.—[Exclusive Dispatch.] Slavonians employed at the Treadwell mine, near Juneau, began rioting yesterday morning, necessitating a call for aid being sent to United States Marshal Shoup at Juneau. Dispatches from Juneau say the riot was precipitated by fighting between Japanese and Slavs, who sympathized with the Russians in the oriental war.

The Japanese and Slavonians have had numerous encounters outside of the mine, and have been notified that their belligerent attitude must be left behind when they went to work. Yesterday they began fighting over recent news from Manchuria, and were soon throwing stones at one another and threatening to draw knives. Several on each side received minor injuries.

Pending Marshal Shoup's arrival with a posse of deputies, Superintendent McDonald armed all his trusted men, and for a time it was thought war would result. By threatening to use firearms, peace was restored and the men went to work.

Complaints Against Postmasters.

DENVER, July 24.—Secretary Haywood of the Western Federation of Miners has forwarded a telegram to the President stating that Postmaster F. M. Reardon of Victor is one of the members of the committee, which, he says, is responsible for deporting miners from the Cripple Creek district, and asking that steps be taken to prevent Federal officeholders from taking part in such demonstrations. Complaints have also been made to the President against Postmaster Reardon and Postmaster Sullivan of Cripple Creek, alleging that they have permitted mail sent to union sympathizers to be opened and mutilated.

MERRY DEL VAL'S CRISIS.

ROME, July 24.—The Tribuna says it is said that Cardinal Merry del Val, the Papal Secretary of State, has tendered his resignation, owing to the hostility of the Cardinals, who are said to accuse him of rendering impossible an accord with France, but that the Pope has refused to accept his resignation.

To Celebrate Increase of Fire Department—New Houses—More Men.

Not a whit behind the rest of the city in metropolitan progress, the Los Angeles fire department is planning to celebrate within a few days the opening of two beautiful homes for additional fire engine companies, new from top to bottom, and two remodeled fire houses, rejuvenated into as handsome and modern stations as are possessed by any city in the United States. Both the new and the remodeled stations are architectural monuments fit to adorn the choicest neighborhoods, and work is about to start on another home for fire fighters and their apparatus, at Seventh and Mateo streets.

Now all that remains to put the fine new home-guarding forts into full commission is the organization of their necessary complements of men. This municipality is today in a uique position with regard to its fire department, inasmuch as the city finds itself compelled to davertise for men to take civil-service examinations to recruit the fi.e-fighting service, instead of having many applicants for appointment.

Before the new companies can be organized, the salary ordinance of the city will have to be amended so as to allow the use of the increased sum needed to pay the men.

From thirty to forty additional men will be necessary. An amended ordinance has been up before the Board of Fire Commissioners, and it is expected that it will come before the Council today.

The artistic brick fire house at Jefferson and McClintock streets, where old "Hose 4" used to be, is a pleasure to look upon. This is to be the home of a new engine company, No. 15. The old hose station was moved off to make way for this modern edifice.

At Hope and Court streets is another entirely new brick and stone station, where engine company No. 16 will await the stirring alarm.

At Pico and El Molino streets the former home of old "Hose 3," has been transformed into a fine modern home for the engine company that is not afraid to be—or can't help being—numbered "13."

Thirty-fourth street and Central avenue has the honor of another one of the old stations brought up to a fine standard of appearance and equipment under the supervision of City Building Inspector Julius Krause, who has superintended the work on the new and remodeled fire houses. Here old "Chemical 2" was housed in the past. Engine company No. 14 will occupy the building in the future.

The new house to be built at Seventh and Mateo streets will house a hose company. All the new and remodeled houses are equipped with the very latest in electric and other appliances, and will play a conspicuous part in the increased efficiency of the department that will be obtained by so substantial an increase in the number of the city's fire fighters.

EVENTS IN LOCAL SOCIETY.

THE dance last Saturday evening at Brighton Beach Hotel was one of the jolliest of its kind, and a number of the young set, and the older set, too, for that matter, hied them down by the 5 o'clock train, some to indulge in a quiet dip in the sea before dinner and then to trip a merry measure till the edge of the Sabbath was upon them, and the final finish was a Virginia reel of the good old-fashioned kind, when several dimpled maidens bowed themselves almost to the floor to surpass the capers cut by their enthusiastic partners. Kotlaba's Orchestra had given all the newest waltzes and two-steps; but for this grand finale there were the airs of the breakdown, "Dixie" and all the rest that inspired the cutting of marvelous pigeon wings, which art was supposed to have died out along with the gentleman of the old school, but evidently revived for the occasion.

Among the many attractive buds who graced the affair were the three Misses Milner, each one a belle in her own right; Miss Lilian Harris, Miss Carson, Miss Hooper, Miss Marie Gavigan, Miss Carrie Bogart, Miss Marie Bowler and the rest of that rosebud garden of girls.

Miss Alice E. Hart, who is at the hotel for the summer, was a popular dancer, while Mrs. E. F. Burns had under her wing two of the prettiest of protégés, her niece, Miss Lois Burns, and Miss Mary Ward of Los Angeles. Mr. Burns and his small son also attended from San Pedro.

Mrs. E. S. Graham, who is at the hotel with her husband, was one of the most graceful of dancers and made a quaint picture in a fetching 1830 gown, the feather of her picture hat sweeping low over her hair.

Mr. and Mrs. George Moore of Wilmington, Del., who are occupying a pretty cottage at Brighton Beach, had brought with them to the dance their little daughter, Maybelle, who was the smallest bud on the scene.

One of the younger belles was little Miss Clara Smith, Mrs. Smith and her daughter of St. James Park and Adams street having come down to get a whiff of ocean air. Miss Smith's young friends, Harold, Roy and Eva Bailey, were gay little dancers. The three are domiciled at the Pelican's Nest.

Unlike most summer resort dances, there were actually enough men to go around and even a few to spare, Mr. Taylor of the Salt Lake road acting as master of ceremonies for the crowning act of the Virginia reel.

Joseph Pugh, Norwood Howard, Bert Travers, H. J. Kingsbury and H. P. D. Kingsbury of East Orange, N. J.; F. M. Grace of Los Angeles, Frank Woodbury, Clark Briggs, Sam Bonsall, R. H. Adams, Frank Rule and R. S. Cauvin were among the beaux of the evening, the last-named young man contemplating a launch party for his friends to be given next Thursday evening from Brighton Beach, when it is hoped that the moon will make it a point of shining.

The happy informality of these beach dances, when the costume is a matter of secondary importance, has made them become almost a fad and they form a jolly break to the monotony of a week. They are to be given on Thursdays as well as Saturdays in the future at the Brighton Beach Hotel, and the next week will see the inauguration of other features which will be winning cards at this ideal beach. The capacity of the bath-house is to be doubled and the girls with masses of beautiful but troubled hair, that must be dried after a bout with the waves, are to have a sun parlor at the bath-house, where their crowing glory can be attended to in short order, and the timid bathers who shudder even at the gentle breaker that continually rolls will have the protection of friendly ropes and a floating barge to give extra confidence.

The hotel is fortunate in sheltering some very interesting people at present. There is a young Princeton man, Edward F. McFarland, who was recently graduated at Princeton and has been appointed as missionary to Korea from the northern Presbyterian Church, and who expects to depart for his field of labor early in October. Mr. McFarland is well known in Los Angeles and was formerly at Occidental College.

Soon, over the great fireplace that greets one in the huge apartment as one enters the Brighton Beach Hotel, there is to be painted a representation of the marvelous volcano of Kilauea, with the snow-capped Manua Loa in the background, the boiling fire and lava flow that appeals with its grandeur. This is to be done by the Englishman, Scovel, who spent ten years of his life dwelling on the edge of this lurid wonder, studying with all his artist's soul to be able to reproduce it. Mr. Scovel came to Los Angeles from Hawaii only a few weeks ago and is at present at Brighton Beach Hotel, where his pictures and his stories of that mysterious land of witching legends and volcanic wonders form a note of variety and interest not often to be met. Mr. Scovel is to address the Ebell Club and give some of the native Hawaiian songs some time in October.

Dr. J. M. McLean was down from Los Angeles yesterday; also W. J. Lawson and wife, Mr. and Mrs. Seeley, Mrs. W. M. Pruym, Mrs. A. D. DeFrees, Mrs. A. F. Anderson, Dr. A. B. Montgomery, Mrs. Rogers, Mr. and Mrs. A. A. Abbot and children, Mr. and Mrs. Lloyd C. Nease and many others.

HOT MUSTARD MENACES HOMES.

FIRE IN STUBBLE NEAR THE PASADENA VILLA TRACT.

Brigade Formed to Fight the Flames, While the Residents of the Vicinity Hurriedly Remove Belongings from Their Houses. Careless Start.

Driven by a stiff afternoon breeze, sheets of flame shot up the sides of the foothills near Schuetzen Park the greater part of yesterday, endangering several hillside cottages which have recently been erected on the Pasadena Villa tract. The fire is thought to have been started by a man who desired to burn off a square of ground upon which to place some lumber, but he was unable to control the march of the blaze, and in a few minutes the whole section was threatened.

The formation of the country at this point is that of a large Y, the prongs being two large flat cañons. Over all of this there was a thick growth of dried mustard plants which proved good food for the flames. The fire started in the right prong of the Y and ate in both directions, filling the air with dense clouds of smoke and making a bake oven out of the section. At the grocery store of Hahn & Kenison, near Baird's station, were several men, who hastily removed their coats, vests and shirts and formed themselves into a fire-fighting brigade. They were joined by five or six Mexicans and it was their untiring efforts which saved the home of Dr. and Mrs. Kutch, the Vogel residence and other smaller places.

The families were terrorized as the wall of flame swept towards their dwellings. Furniture, trunks and household belongings were removed to places of safety. The dead stalks of the mustard stood at an average height of five feet and made a solid mat on the hills. The method adopted for checking the flames was by back firing, and it proved successful. It was 4 o'clock in the afternoon before the squad of fifteen men rested from their labors and they were a sorry, besmudged lot when seen by a Times reporter about an hour later.

"The residents of the district have been fearing this fire for some time and have been dreading lest it might take place in the night," said C. Hahn. "It was a narrow escape for some of the places, and it was a most fortunate thing that it happened on Sunday, when most of the men were at home. On any other day I am sure the houses would have gone up in smoke. It certainly was hot work. One Mexican, who just dropped in off the Adobe road, was a wonder. He evidently understands the business of fire fighting, but after it was all over he just mopped his forehead with his big bandana, picked up his coat and disappeared without so much as waiting for a thank you."

Among the residents of Baird's who joined in the hot battle were J. D. Harris, Ed Harris, Ben Johnson, C. Hahn, S. A. Kenison, Dr. Kutch, Messrs. Vogel and Zane and others.

QUARTETTE OF ORATORS.

Francis Murphy Introduced Them in the Gospel Temperance Meeting Last Night.

The gospel temperance meeting in Blanchard Hall last night was one in which the inspiration of the movement, Francis Murphy, was successful in bringing out a quartette of orators of more than ordinary ability, and he himself made a half-dozen little speeches and punctured with wit and humor the entire programme. Mr. Murphy had preached in the First Methodist Church of Pasadena in the morning and therefore relieved himself of any extended talk last night at his own meeting.

The meeting was led by J. H. De la Monte, who proved a surprise as a leader and made a delightful address on the general good of the gospel temperance work.

Addresses were made by Harold Watson, Frank Pratt, John Pratt and Grove E. Walter, at least three of whom are young lawyers who have recently become identified with the movement. All the addresses were of unusual excellence, and that of Mr. Walter was a surprise. He is a lawyer of platform ability out of the usual, who recently came here from Chicago, where at one time he was prominently connected with the legal affairs of the State of Illinois.

As told by himself, Mr. Walter went to the Murphy meeting a week ago at the instance of Frank Pratt and last Thursday evening he was induced to go to the Murphy prayer meeting, and there he signed the pledge.

"I have many misgivings," he said, "about appearing before such an audience as this, having signed the pledge but three days ago, but I am here at the imperative command of the captain, and I trust you will pardon me."

He proved himself to be a speaker of ability, his eloquence being tempered with good judgment and embellished with the figures of a careful education. A few of the striking things he said were these:

"No young man ever paid for his first drink out of his own pocket.

"The man who says he can fight booze and fight it successfully, deludes nobody but himself.

"When my little baby girl once asked me what made my breath smell so ugly, I told her my breath was like that of the flowers in the vase. That was the voice of God speaking to me, but I put it away and made myself a liar."

The music numbers were a violin solo and a vocal solo by Mrs. Spencer, who has been among the entertainers at the Long Beach Chautauqua; a vocal solo by Miss Miller, who is blind; a baritone solo by Mr. Martin, and a contralto solo by Stella Callender. At the close of the meeting a large number of persons signed the pledge.

BIG STAKE IN TWO WEEKS.

WILL HAVE GROSS VALUE OF PRESIDENT'S SALARY.

Great Race Will be Feature of Meet at Saratoga—Over Three Hundred and Thirty Nominations Were Made, but Not Over Dozen Will Start—Many Cracks Eligible.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] The great Republic Stakes, which will have its first running one week from next Saturday at Saratoga, will in time probably become the richest stake event in the world, from a monetary point. To its winner this year will go $40,000. The second horse will receive $5500 and the third $2500. The nominator of the winner will receive $2000, making a gross value of $50,000.

The stake was founded by the late W. C. Whitney, who, when he took the reins of the management at the Spa, determined to make it the greatest horse-racing event in the world. His pet idea was a stake of the magnificence of the Great Republic.

While the Saratoga Racing Association guarantees that the stake shall be worth $50,000 at its first running, it is not probable that it will be compelled to add more than $5000 to it. The list of forfeits that has already accrued from nominations that were made, and which have since been declared, already amounts to nearly $30,000. Next year the chances are that the stake will be worth nearer $75,000, and in time may even amount to $100,000, thus making it possible for the lucky owner to earn more than a comfortable fortune at one swoop.

Nominations to the stake, which is for three years old and upward, may be made either for foals, yearlings or two-year-olds and upward. It conditions make it the biggest kind of a gamble for breeders and owners. The total cost to the breeder who makes a foal entry, providing the entry survives and goes to the post, is $525. Yearlings can be nominated and start at a cost of $700, and two-year-olds at the time of entry can start for $900. For the first running of the Stake there were originally 331 nominations, only fifty-three of which still remain eligible. It is not probable that more than a dozen or fifteen of these fifty-three will go to the post on the day of the race, and they will have to pay a starting fee of $300. Now that owners and breeders better understand the conditions of the race, the value of the stake should increase vastly. Most prominent of those that will face Starter Fitzgerald in this year's running are: Knight Errant, Bryn Mawr, Waterboy, Delhi, Toboggan, Palmbearer, Hermis, The Picket, Montreson, Mercury, Ort Wells, Broomstick and Africander.

Walk-Over Concert Tuesday Night.

Tomorrow night the Walk-Over Shoe Store will give a grand concert at Eastlake Park.

NOTIFY THE PRESIDENT.

Members of the Committee Will Meet the Chief Executive at Sagamore Hill Wednesday—Ceremony Will be Simple in Character.

[BY THE ASSOCIATED PRESS—P.M.]

OYSTER BAY (L. I.) July 24.—The arrangements have been made for the notification of Theodore Roosevelt of his nomination for Presidency by the Republican party. The ceremony will take place Wednesday at 1:30 o'clock, p.m. Following custom, the notification will be at President Roosevelt's home, Sagamore Hill.

The members of the Notification Committee appointed by the Chicago convention have been requested to assemble at the Waldorf Astoria Hotel in New York Tuesday evening to make preliminary arrangements for the ceremony of the day following. Speaker Cannon, chairman of the committee, will arrive in New York some time tomorrow. He will receive the members of the committee as they arrive there. At 10:30 o'clock Wednesday morning the committee will board a special train for Oyster Bay, the special train being scheduled to arrive here at 11:40 o'clock. At the station, the party, which will include not only members of the Notification Committee, but also invited guests, will be met by carriages in which they will be taken to Sagamore Hill.

On account of the isolation of the President's home, only about one hundred and twenty-five persons will be in the party, including the members of the Notification Committee and relatives and friends of the President who reside in the vicinity of Sagamore Hill.

Among those present will be Chairman Cortelyou of the National Republican Committee; Gov. Odell and Senator Platt of New York; Cornelius N. Bliss, treasurer of the Republican National Committee; William L. Ward, national committeeman; William L. Barnes, Jr., chairman of the Executive Board of the Republican Central Committee of New York and other prominent men from all parts of the country. It is probable that no member of the President's cabinet will be present. Several of the members are now on their vacations, and the President did not care to cut short their holiday by inviting them to attend the notification ceremonies. A majority of them, however, will meet the President on his return to Washington, the latter part of the present week.

The ceremony of notification will be as simple and unostentatious as possible. The wide veranda almost surrounding the President's house will be draped with American flags. If the weather be fair the committee and the guests will be assembled on the spacious lawn, north of the house. Speaker Cannon, who will make the speech of announcement for the committee, and President Roosevelt will speak from the veranda. Should the weather be inclement, the curtains of the veranda will be lowered and the ceremony will take place under cover.

Chairman Cortelyou will arrive here, according to present plans, Tuesday, and will be a guest of the President until after the notification. He expects then to start immediately for Chicago, where he will formally open the Western headquarters for the campaign.

The President and Mrs. Roosevelt, accompanied by the older children, attended service as usual today at Christ Church here. Secretary Shaw remained at Sagamore Hill during their absence. Shortly after 4 o'clock the Secretary left the President's home and took the 5:02 train at Oyster Bay for New York. He expected to return immediately to Washington. His visit, he said, had no special political significance. The day was disagreeable, and the rainfall was heavy. No visitors were received by the President.

FIGURES ON SUCCESS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 24.—[Exclusive Dispatch.] Chairman Cortelyou goes to New York tomorrow on an early train, confident that the President will be elected. The following table of electoral votes, prepared at Republican headquarters in the Arlington, shows what Chairman Cortelyou expects to be able to do. In the first place he treats New York, West Virginia and New Jersey as doubtful, with 58 votes altogether. He divides the rest as follows:

For Roosevelt: California, 10; Colorado, 5; Connecticut, 7; Delaware, 3; Idaho, 3; Illinois, 27; Indiana, 15; Iowa, 14; Kansas, 10; Maine, 6; Maryland, 8; Massachusetts, 16; Michigan, 14; Minnesota, 11; Montana, 3; Nebraska, 8; Nevada, 3; New Hampshire, 4; North Dakota, 4; Ohio, 23; Oregon, 4; Pennsylvania, 34; Rhode Island, 4; South Dakota, 4; Utah, 3; Vermont, 4; Washington, 5; Wisconsin, 13; Wyoming, 3. Total, 267.

For Parker: Alabama, 11; Arkansas, 9; Florida, 5; Georgia, 13; Kentucky, 13; Louisiana, 9; Mississippi, 10; Missouri, 18; North Carolina, 12; South Carolina, 9; Tennessee, 12; Texas, 13; Virginia, 12. Total, 181.

Chairman Cortelyou has a list of fifteen members of the National Committee, from which he will select his Executive Committee. He says that as yet he has not come to any definite conclusion regarding the selections. The names are to be announced in two or three days, probably after the final conference with the President.

NEW YORK BRYANITES WILL BOLT PARKER.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] Congressman Baker, the radical Democratic leader of Brooklyn, today made the statement that many radical Democrats of Kings county will vote for President Roosevelt.

"The Bryan Democrats are in a receptive mood," said Baker. "They were disgusted with Parker's gold telegram, and undoubtedly many of them regarded it as trickery to placate the gold men, and leaving the convention no way to retreat without extreme humiliation.

"The St. Louis convention was a great gathering. Had the audience had power to nominate, Bryan would have been named for a third time. I am inclined to believe he would have polled a larger vote than any other living Democrat."

Congressman Baker is not a candidate for renomination. By many his refusal to run is taken as a strong indication of the stand the radical Democrats will take in the Presidential election. Undoubtedy many of them see in Parker's rout a rehabilitation of Bryan as national leader, and his nomination in 1908.

PARKER'S NERVE PUT TO TEST.

HE'S INVITED TO MEET BRYAN ON CHICAGO PLATFORM.

Hill's Candidate is Very Sweet to Mayor Harrison's Committee of Invitation, but Does Not Accept the "Golden" Opportunity—Bryan Anxious to Fuse on a Senatorship.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 24.—[Exclusive Dispatch.] Parker has a splendid opportunity to demonstrate once and for all that he is of that heroic mould which scorns policy for courageous principle. It is squarely up to the Judge to prove to the people that he dares to ignore Bryan, and thus face almost certain defeat in the Western States that the Democrats have been boasting they will surely carry, or speak on the same platform with Bryan in Chicago, and thus defy eastern sentiment, which is bitterly opposed to the silver champion.

To speak, or not to speak, that is the question. Parker had it put up to him when he had as visitors at Esopus three messengers from Carter H. Harrison of Chicago, who carried the request that Parker should speak with Bryan under the auspices of the Cook County Democracy, August 20. The men who called were E. M. Lahiff, secretary of the Cook County Democratic Club; Oscar F. Mayer, president of the United German Society, and Lawrence E. McGann, Controller of Chicago. They told the candidate that the meeting would be the most important held in the West; that Bryan had agreed to speak, with the understanding that Parker would join in the "harmony," and they asserted that a refusal to meet Bryan would knock the campaign endwise in Illinois and Indiana.

Parker asked the Cook county men to have dinner, and afterward discussed with them the situation in the Middle West. The committee told him that all factions had come to an agreement in Illinois; that Mayor Harrison had fallen on the neck of John P. Hopkins, and that Maj. Inch, for Parker and Davis, would wipe out Roosevelt's gains in the rest of the State. The only thing necessary was to bring the candidate and Bryan on the same platform, so as to please the gold and silver men in the State.

At the end, Parker announced he was extremely happy to have received the invitation and glad to learn officially from the committee that the feud between Harrison and Hopkins was at an end. The delegates thought the candidate was rather sweet in his expression of good-will, but insisted upon an answer to their invitation. They said they would at once return to Chicago, and wanted to be in a position to say whether Cook county Democrats might hear the candidate on the night that Bryan is to speak.

Parker finally said he was in doubt whether he should make speeches in the campaign. The question had not been settled pending a decision as to his resignation from the bench. It might happen that he would remain in Rosemount until after the election. Then, when further pressed, the candidate said that should he decide to speak outside of Rosemount, he would accept the invitation from the Chicago Democrats.

BRYAN AND SENATORSHIP.

[BY DIRECT WIRE TO THE TIMES.]

OMAHA (Neb.) July 24.—[Exclusive Dispatch.] The strenuous effort now being put forth by certain party leaders to bring about fusion between the Democrats and Populists in Nebraska this year is interesting, in its relation to William Jennings Bryan's candidacy for the United States Senate. The fusion movement was set on foot right after the adjournment of the St. Louis convention by Bryan and a few of his political followers.

Bryan will make a strenuous effort to bring about fusion between the Democrats and the Populists, and to defeat the Republican State and legislative tickets next fall, in order that he may succeed Dietrich in the United States Senate. He desires to go to the Senate, and believes that with fusion he will stand a good chance to go there. But the Republicans are not at all anxious about the situation. They know that without fusion it will be impossible for the opposition to defeat them, and they are morally certain that with fusion there is no probability of their suffering defeat.

KEARSARGE FEVER PATIENTS.

TRIESTE, July 24.—Chaplain Isaacs, Capt. Williams, United States marines, Lieuts. Hudgins and Clement, Ensign Timmans and two men of the crew of the flagship Kearsarge, who are suffering from typhoid fever, remain in the hospital here. All are doing well except Lieut. Clement and one man.

CANAL ZONE DIFFERENCES.

PANAMA, July 24.—The Star and Herald in an editorial article propose that the differences pending between the Panama government and that of the canal zone can be submitted for decision to the Supreme Court of the United States. The idea is well received in all circles here.

WANT POOLROOM LAW TO STAND.

TEMPERANCE ORGANIZATIONS APPEAL TO CITY COUNCIL.

Ask that no Provision of Present Ordinance be Repealed, and Demand of Mayor, Police Commissioners and Chief of Police Strict Enforcement of Law.

"Resolved, that this meeting, representing the Memorial Baptist Church, the Woman's Christian Temperance Union, the Good Templars and the Prohibitionists, heartily indorses the action of the leaders of the W.C.T.U. in their efforts to prevent the repeal of the ordinance relating to minors in poolrooms, saloons, etc.; and we respectfully request our City Council not to repeal the law or any provision thereof. We expect the Mayor, the Board of Police Commissioners and the Chief of Police to see to the strict enforcement of the law."

This was the resolution unanimously passed last night at a temperance meeting held in the Memorial Baptist Church on Grand avenue. The meeting was under the auspices of Baldwin Union, and invitations had been extended to all the temperance organizations of the city to attend. The auditorium was well filled.

The address was delivered by Rev. C. J. Hall, a prohibition speaker. Mr. Hall detailed the advance in temperance sentiment in educational lines, church work, business and political life, and then presented the work being done by the Woman's Christian Temperance Union. The speaker amplified the grounds covered by the W.C.T.U. motto: "For God and Home and Every Land," and made a plea for the support of this work.

Mr. Hall then introduced the resolution given above, and it was adopted by a loudly-expressed vote. A committee from the meeting will deliver this expression of sentiment to the City Council tomorrow.

During the evening Mrs. Hall sang several temperance solos, and the orchestra rendered selections. About a dozen new members were secured for the Baldwin Union.

TO CARRY ON WORK MRS. STIMSON BEGAN.

MRS T D STIMSON.

HEARTILY banding themselves together, the coworkers of Mrs. T. D. Stimson have decided to take upon their own shoulders the work of the Stimson-Lafayette Girls' Industrial School, whose inception was the idea of this noble woman.

The institution is located at No. 218 Lafayette street, in the heart of the industrial center, and is designed to furnish a place of education for young women who have been forced into the ranks of the breadwinners, and who with manual skill must compete—perhaps with men—in the battle of the world.

Polytechnic high schools, trade schools—all these are good in their way, but they do not quite meet the conditions that Mrs. Stimson saw in 1896, when her school for working girls was first established and incorporated.

In this building good teachers give daily lessons in practical millinery, dressmaking, cooking and housekeeping. A physical culture class is one of the advantages afforded.

The present managing board is headed by Mrs. Augusta Hine, and with her are associated Mrs. E. T. Barber—acting president—Mrs. L. W. Blinn, Mrs. Felix Howes, Mrs. C. W. Hinchcliffe, Mrs. Walter Lindley, Mrs. G. A. Parkyns, Dr. E. K. McKenzie, Mrs. T. T. Knight, Mrs. J. H. Adams, Mrs. A. J. Bradley, Mrs. C. H. Fuller, Mrs. W. R. Burnham, Mrs. Todd and Miss N. G. Oliver. The Broadway Bank is the treasurer of the school.

THE NEGRO AN ISSUE.

Gov. Vardaman of Mississippi is quoted from the St. Louis convention as saying that "This is a white man's country," and that, if he had had his way, there would have been an anti-negro plank inserted in the Democratic platform. In fact Vardaman was dissuaded from making a fight for such a plank only because other certain complications arose at that mob-ruled gathering of which the long-haired Mississippian was a very active and influential member. Vardaman comes from the black belt where hatred of the negro is hereditary and totally opposed to reason, charity or fair play. He comes from a land where the negroes bear the burdens of toil, where with strong arms they wring from the soil its wealth, and where, in the sweat of their brows, beneath a merciless sun, they earn an all-too-scanty crust. In Mississippi the negroes outnumber their white neighbors almost ten to one, and although, under the Constitution of the United States, they stand upon the same political level as any other race, they are regularly robbed of their right of franchise by iniquitous and unholy State laws. It is by such means and practices, as all the world knows, that Mississippi and the rest of the solid South is kept in the Democratic column.

The sentiment of the country at large has brooked this disgraceful state of affairs about as long as it is willing so to do, and the time has at last come when the people are determined to rise up and put a stop to it. Therefore, in order that a wholesome warning may be served upon these gay, cavallering "nigger drivers," the Republican party has inserted the following plank in its Chicago platform:

"We favor such Congressional action as shall determine whether, by special discrimination, the elective franchise in any State has been unconstitutionally limited, and if such is the case, we demand that representation in Congress and in the electoral college shall be proportionately reduced, as directed by the Constitution of the United States."

There is no plank in all that splendid platform that will appeal with stronger force than this to the great heart of the nation. Neither the South or any other section of the Union can or will be allowed to pervert or defeat the provisions of the Constitution, in this or any other way. If the South is determined to eliminate the negro from its political affairs, then the way to bring the South to its senses is to make it suffer the consequences of its acts by cutting down its representation in the electoral college and in Congress to the basis of the showing that it makes for itself.

Yes, there's a rod in pickle for the people down in Dixie who count the negro in the census, but cut him out of the registry lists at election time. The Republican party made the negro free, and it proposes to keep him free. The blood of hundreds of thousands of Americans was not spilled to strike the shackles from the black man with any understanding that those shackles should ever again be forged.

There is no "enemy's country" for the united Democracy this year.—[Atlanta Constitution.

Quite right, merry sunshine. And the "united" Democracy will be mighty lucky if it retains its own country.

DEFEAT FOR ENGLAND.

Mighty England, ruler of the sea and a military giant of wonderful prowess on land, was once soundly whipped by our ancestors in a bitter life-or-death conflict. Today, on the field of friendly contest, the virile young descendants of the warriors of old, have lowered the Union Jack on Britain's own grounds, and have placed the Stars and Stripes in its place at the masthead to proclaim a peaceful victory over the sturdy sons of England.

For ages Great Britain has boasted of its athletes, its sound-bodied youth keen in all outdoor sports, and of their prowess in athletics. England has been called the home of sport, in all its forms. England has laid claim to the making of the best bird-guns in the world, and to producing the men whose eyes were quickest, nerves steadiest and aim surest on the stubble-fields; she has claimed to manufacture the most correctly-balanced rods, the smoothest-running reels, the daintiest yet strongest of flies, and to have the men whose wrists were strongest and whose casts reached to greatest distances and fell as falls the wild-rose petal fluttering from its bush-home to the bosom of the ripples; she has turned out great yachts; she has developed youth of brain and brawn, fleet of foot, strong of arm and of great athletic achievements. But on Saturday last the athletes of Yale and Harvard, strenuous American young men, beat Merrie Old England six to three in the international games held at the Queen's Club grounds, West Kensington. The Americans took six out of nine events, making them decisive victors in the sports, and sending the Stars and Stripes to the top of the flagpole reared to indicate to the visiting throngs whether England or America was victor.

For years America has successfully challenged England's supremacy on the field of sport; and with each new year America's prowess has been made more and more manifest; until now, not only in athletic but commercially, industrially, in national development and strength, and in every good way, we are prepared to challenge the leadership of any nation on earth.

The American Eagle will be pardoned if he emits one more lusty scream, merely to again proclaim that he is ready to meet all comers.

STRIPES AND LASHES.

Until recent months the Missouri "boodler," backed by political influences, has been in the habit of punishing others for insubordination, when necessary, instead receiving it himself for the same offense. Mr. Folk has been instrumental in bringing about some interesting changes.

According to news dispatches, Ed. Bersch of St. Louis, now serving a two years' term in the State penitentiary for "boodling," was recently given forty lashes and sent to the dungeon for insubordination. Bersch is said to have shown supreme contempt for prison rules ever since he arrived there. It is not improbable that he will hereafter see the prison regulations in a newlight.

It must be very gratifying to the Missouri boodler-hunters, as well as to the country at large, to note that their successful efforts to put the stripes upon members of the itching-palm clan will be properly supplemented, when opportunity offers and occasion demands, by an equally successful effort to distribute a bunch of lashes upon those portions of the human body where they will do the most good.

The Bersch case also makes it obvious that while retribution may sometimes be a bit slow, it is everlasting sure and distressingly painful.

CONSIDERATE UNCLE SAM.

The employé of the Federal government cannot complain of a lack of consideration for his well-being, on the part of Uncle Sam. Ten months constitute a year's work among government employés; the other two months belong to the workman, one being allowed for sickness and one for annual leave to rest from laborious duties.

But Uncle Sam receives excellent returns from his annual $3,000,000 vacation investment. The Washington government knows that two months of leisure add very materially to the clearness of brain, energy of body, cheerfulness of heart and general efficiency of its employés. Moreover, it realizes that if the employé is obliged to bear the cost of a two months absence from work, comparatively few will feel that they can afford it. Therefore the government gives sixty days of each year to every employé, for rest—and with pay.

Three years ago the Census Office issued a statement giving the total number of employés in the legislative, executive and judicial branches of the government in Washington as 27,605. The average salary and wages paid is more than $100 a month—$1200 a year—for each male and female employed by the government. It will be seen, from these figures, and on the warrantable assumption that the army of employés numbers by this time close to 30,000, that the government spends annually on vacations for its Washington employés alone about $3,000,000.

If Uncle Russell Sage should find this out the Coroner's jury would have no difficulty in arriving at a verdict.

Hearst's New York Journal dramatically answers James Gordon Bennett's Parker editorial in the Herald, and says, among other things, that "the Democratic party does not want a master; the Democratic party wants a Democrat." And doubtless, if pressed to do so, Mr. Hearst might be induced to recommend someone whom he thinks answers the description. But the St. Louis convention, unfortunately for Mr. Hearst, but very fortunately for the honor of the Democracy, did not seem inclined to press the matter.

Henry Labouchere, proprietor of London Truth, is out with a strong defense of the cigarette. Does the London editor realize that he is taking his life in his hands, with Aunt Carrie Nation headed for England? And while Unc' 'Lige Dowie would doubtless like to cross the pond again and have a personal interview with Labouchere and regale him with a varied assortment of choice epithets, there are certain reminiscences in connection with his recent visit to England which make him hesitate.

Ed Butler of St. Louis is spending a few weeks among the hills of Manitou, Colo., and takes occasion to proclaim, from their heights, that the grand jury bribery indictment against him is merely part of a political plot, etc., etc. Mr. Butler closes his interview with the significant but rather unnecessary remark that he is through with politics.

The Kansas City Star remarks that "there is less excuse for Henry Gassaway Davis's silence than for Judge Alton B. Parker's. When a man reaches the age of 81 and has anything of importance to say, he ought to say it." That "anything of importance" qualification at once relieves Mr. Davis of the duty of talking.

A riot occurred in the Filipino village at the World's Fair Saturday last, precipitated by two white men who objected to their "lady friends" flirting with the men of the Igorrote camp. It is understood that the Igorrotes barely escaped, their entire bracelet costume being almost torn from their persons in the conflict.

The Kansas City, Kan., City Council has been engaged in a discussion of the right of way of the Kaw River. It seems rather strange that the Council should take up time trying to determine that which the Kaw River has for many years established for itself without the consent of anyone on earth.

In spite of the daily protestations of the esteemed Atlanta Constitution that Democratic harmony is an established fact, it is noticeable that the hair of the Tammany tiger continues to stand on end at the very mention of the names of Hill and McCarren.

The discovery of a new, very powerful and successful anaesthetic is announced; and the supreme test of its efficiency is believed to have been made during the operation of "engrafting" the gold standard upon Col. Bryan.

Carl Schurz has boldly and openly told Judge Parker that he is for him first, last, and all the time. But, strange as it may seem, there are still plenty of persons ready to go "short" on Parker stock if given the opportunity.

There is only one job that can, with any show of success, contest the chairmanship of the Democratic National Committee for drawbacks; and that one is the Chicago weather man's job.

It is now reported that Henry Gassaway Davis, Democratic Vice-Presidential candidate, was once a Republican; which merely goes to prove that age doesn't necessarily bring wisdom.

Postmaster-General Payne, in predicting Republican victory by overwhelming majorities, demonstrates that his eyes are able to read correctly if the print isn't too fine.

Looking over the record of David Bennett Hill's utterances since the St. Louis convention adjourned, Mr. Hill appears to have contracted the Parker habit.

Coroners' juries in the East continue to render verdicts of "suicide" in the cases of fellows who daily admonish their friends to "keep cool."

The campaign in Kansas promises to be excessively hot. As a starter the charge is made that Judge Parker looks like Senator Burton.

Under the circumstances, the old rule "eat less meat in the heated season" will impress the public as both sensible and expedient.

Biographers will please remember that Henry Gassaway Davis is 81-years young.

Senatorial campaigns are sometimes as hard as Flint.

FUN WITH KNIGHT.

George A. Knight, who has been highly complimented for his flights of oratory in the Republican National Convention, by his party newspapers, is now indulging in a midsummer dream. The outlines of a Senatorial chair in which he is seated appear to him now and then. It is only a dream, George; only a dream.—[Tulare Times.

George Knight, he of the foghorn voice, is mightily tickled that some of his friends have suggested that he would make an availabde candidate for Senator. Knight is a good enough Republican, but it is not likely that one platform speech will carry him into the United States Senate. He is so good a stump speaker that he generally gets a hundred dollars for every speech made during a Presidential canvass. Incidentally, he may help his party, but seldom at the expense of his own finances.—[San Jacinto Register.

At the Churches Yesterday.

Temple Baptist Church.

PASTOR ROBERT J. BURDETTE preached at the morning service from the text, Proverbs xviii:21—"Death and life are in the power of the tongue." He said, among other things:

"Some English writer has said, 'Preaching is immortal. If it could be killed, it would have been killed long ago by the thousands of weak sermons preached every Sunday throughout Christendom.'

"There are sermons, I doubt not, weak, dull, stupid, muddy sermons—you know that; you have to listen to some of them right in this pulpit. Occasionally we hear a man preach, and wonder at two things all through the sermon—first, why he preaches at all; and second, why anybody goes to hear him. Sometimes you hear a man preach forty-five minutes and then wonder, every time you think of the sermon afterward, what he was trying to say, and what he thought he would have meant by it if he had said it. And yet, the very fact that you think of it at all, proves that it had some power to compel you to think. I doubt if there was ever a sermon preached or an oration delivered that did not move somebody, drawing the hearer to the speaker's thought and leading him a little way in the direction of the speaker's purpose. I may sit through a sermon, mentally rendering my verdict upon it, passage by passage, declaring it the emptiest of nothings, mere balderdash, and you may go away condemning it as utter twaddle, and the man who sat between us may receive into his life from that very sermon the inbreathing of a soul of strength and purity.

"Just as I am nodding to sleep under the dullness of the preacher's platitudes and the monotony of his delivery, this man at my side, inspired by a burning thought, is straightening himself up to a moral height that his sould never reached before, as a man insensibly straightens himself and sets his shoulders back unconsciously when he stands before a martial figure. 'Talk is cheap,' we sometimes say. Talk cheap? There isn't a commodity in the world more common and more precious. And often it costs the most when it is given for nothing. Talk cheap! A mean, ungenerous suspicion, only half felt and not half believed, lightly uttered in a moment of idle gossip and then forgotten by the mind that gave it birth, passes from lip to lip, gathering venom from every repetition until it grows into a hideous lie. A lie that fastens upon an innocent life, a life happy and joyous in the round of its homely duties, unsuspicious of evil. A foul slander that crushes a life, tramples down its ambitions, paralyzes the eager, willing hands so diligent in good work, breaks the singing heart with bitterness and bows the covered head into the dust with undeserved shame—and nothing in the whole story that brings ruin upon a home, but talk! A horrible lie, hideous, noisy, chattering, with nothing but the echo of its own words to sustain it and keep it alive—is that talk 'cheap?' What would you take, man, as the price of such talk about your wife or daughter? What would you take, woman, for such talk about the father whose silver hairs you kiss with tender reverence, or about the boy who is the prop of your own declining years?

"Talk cheap? Will all the money you ever saw buy back the cruel, stinging words you shot like rankling arrows into the heart of a friend in a moment of senseless anger years ago? You gave them for nothing. Now try to buy them back. Bribe forgetfulness, bury the burning words that pitiless Memory keeps alive in your soul. Bribe Death to give you back the thoughtless taunt, that bitter years ago brought the glistening tears and the quiver of pain upon the loving eyes and tender lips where the dust of dreamless sleep rests today, soft and silent as the ashes of twilight. Ah, beloved, talk is common, and there's oceans of it. But it isn't cheap."

St. Vincent de Paul Society.

The feast day of the conferences of St. Vincent de Paul was celebrated yesterday by a general communion in all the Catholic churches of the city in which the conferences are established. All the members attended holy communion in the morning and were entertained in the afternoon at the Cathedral Hall for a general meeting. All the conferences were represented by their members. Rt. Rev. Bishop Conaty presided. A. I. McCormick acted as secretary. All the conferences were represented, over ninety members being present. The regular quarterly reports of each of the nine local conferences were presented. These showed that during the three months of its existence the local society has received over $600 in cash from the donations of its members and has disbursed among the poor and needy in our city, in food, clothes, provisions and other necessaries, over $600. More than twenty-five families were assisted. Proceedings were inaugurated tending to the establishment of a permanent committee whose object will be the procuring of employment for those deserving and in need of the same.

The right reverend bishop congratulated the conferences upon the work so well begun. He expressed great pleasure at the reports made by the secretaries and said that he was now satisfied that the work of organized charity was so well established that there could be no question of its future success. He recalled his great anxiety in having a conference in every parish to take care of the deserving poor, and said that no greater work lay before the Catholic laymen of Los Angeles than that which was demanded by their devotion to charity. The many reports already received give evidence of splendid results, and he said that it was only a question of time when the members themselves would realize how much good could be effected by these means. He recalled to their attention the origin of the conferences in the young Catholic laymen of Paris, but said that the call to charity was felt in every city and the responsibility for it was assumed by the laymen. This movement is essentially a laymen's movement and the spirit of Christ should actuate them all. Religion expresses itself in doing good to others as well as in doing good to one's self. The history of organized Christian charity is the history of the Catholic Church, which, from the beginning, loved the poor and went to them in errands of mercy, not only to help their bodily wants, but also to give courage to their souls, and thus to lead men to Christ and to hope. A member of the conference filled with this spirit helps himself to a better life and is strengthened in his faith by the good that he does to his fellow man. To reach out to the abandoned, to relieve suffering, to make the pathway of life more pleasant, to bestow upon the poor some of the comforts enjoyed by their more prosperous neighbors, is indeed the most commendable of acts. The spirit of unity in work is the secret of success.

Bishop Conaty spoke of the recent establishment of the Good Shepherd Home for wayward girls, and said that this was but another means established by the church for the betterment of social conditions. He also spoke of the relation which the conferences should have toward the courts in order to help the officers of justice in uplifting and bettering those whom social conditions had brought within the scope of the law. He said it was his hope soon to have the conferences regularly affiliated with the parent society and in time to enlarge their work so as to keep in touch with the movements by which homes might be provided for abandoned children and care taken of them in order to save them to religion and to home. He closed by urging the members to united effort according to the rules of the society, that the community might realize that the great Catholic Church was itself a public almoner, reaching out toward the poor and the abandoned in order to strengthen society and improve the morals of the community.

Advent Evangelist.

William Ward Simpson, the Advent evangelist, had an immense audience last evening at the Gospel Pavilion, Seventh and Spring streets. He spoke on "Who Changed the Sabbath?" pleading for a return to the observance of the seventh day, the Sabbath of the Fourth Commandment, which he declared is still in force. The observance of Sunday, the first day of the week, as the Sabbath, he declared wholly unauthorized by scripture and dependent only upon papal presumption, which has led to almost universal disobedience of the divine mandate.

Basing his remarks upon Paul's second epistle to the Thessalonians, second chapter, in which the apostle declared that Christ would not come again until after "a falling away," the evangelist reviewed the great apostacy of the dark ages, from which partial recovery followed in the reformation of Luther. To prove that the apostacy predicted by Paul was due to the errors of papacy, he gave a hasty glance at the vision of Daniel, seventh chapter, in which the universal powers of the earth were symbolized by the Babylonian lion, the Medo-Persian bear, the Grecian leopard, and the "great and terrible beast" used to represent Rome, the papal phase of the Romish power, as shown by the "little horn," of Daniel vii, was examined carefully, and the specifications of the prophecy were shown to fit exactly the predictions made by Paul concerning the apostacy.

Reverting to the history of the papacy, the terrible persecutions of the inquisition were outlined, when "heretics" numbering from fifty million to one hundred million, were done to death, after the most excruciating tortures. The time prophecy, showing that this apostate power was to remain in authority for 1260 years, was shown to have been fulfilled exactly by the papacy, which was established in 538 and continued in power until 1798, when the Pope was arrested by Berthier and taken to France, where he died in exile.

But this power was to "think to change times and laws." The ten commandments as given by God on the tables of stone were read by the evangelist and contrasted with those read from the Catholic catechism. By this process it was shown that the papacy had stricken out the second commandment, forbidding image worships, and divided the Tenth, relating to covetousness, so as to make out the entire number ten. The change of time by Rome was shown to consist in reckoning the day of twenty-four hours from midnight to midnight, instead of from sundown to sundown, as in the beginning of creation.

This led up to the consideration of the Sabbath question, and the Catholic catechism was read from different text books, recognized by papists as authoritative, in which the claim is made that the "change" was made from the seventh to the first day of the week by the papacy, which "appointed" Sunday to be the day of rest, instead of the Sabbath of the scriptures. That this change is recognized by Protestant sects, who deny the right of the papacy to appoint other feast days, is mentioned in the Catholic books quoted by Mr. Simpson last night.

Among other citations, the evangelist read of an offer by a Catholic priest, Father Enright, in which he offered $1000 to any Protestant to show from the scriptures any authority for the observance of Sunday other than the commandment of the Catholic Church. Mr. Simpson said he had written to Archbishop Gibbons, inquiring if this offer of Enright was authentic. He exhibited two letters, one from Priest Enright, the other from Archbishop Gibbons, which he promised to read this evening at the pavilion, when he will tell of his own experience at Chatham, Ont., where he was imprisoned for forty days for working Sunday.

REAL ESTATE NUMBER.

The Times will issue, during the fore part of August, a special Real Estate Number. The subject matter and illustrations will be devoted entirely to city and suburban lands, country property, building industries and real estate enterprises, past progress and future prospects. A graphic history of the development of the Southwest during the last quarter century will be made one of the principal features of the publication, and no effort or expense will be spared to make the facts contained in this special edition authentic and informing. It will be essentially a publication for the prospective homeseeker and settler.

Advertisers desiring space in this number should consult the Business Department early, as only a limited amount of advertising will be received for it.

It is the intention of the publishers to mail a copy of this special number to a selected list of over 20,000 persons now living at a distance.

WHAT CHANCE HAS OXNARD?

Ventura County Certain to Turn Him Down.

Not Enough Men for Him to Complete All Tickets.

Thomas Flint, Jr., Will Stand for Re-election.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

VENTURA, July 24.—The forces of Senator Bard and Henry T. Oxnard will be on the firing lines on Tuesday in what will be the most interesting fight ever held in this county. Naturally one would expect that it would be a great battle, and it would be if Mr. Oxnard had the strength in the county which Senator Bard has and has always had. But while the name of Oxnard is well enough known in Ventura county, the man himself has to be pointed out to nine-tenths of the people; while he has immense interests here, he himself is comparatively unknown. His interests are equally as great in Colorado, Louisiana and Nebraska and other localities where sugar-growing interests center, and in those places he spends as much time as here and is perhaps as little known in those localities as here, for he has local managers to attend to details at each of his factories, as here. His real home has been in New York City, where he has put in most of his spare time.

On the other hand, it seems that Senator Bard has always been in Ventura county. He came to the place before at was a county and was present at the borning. Since that time and up to a very few recent years he has taken an active part in nearly everything that made for the betterment of the county. He is interested in many enterprises, covering nearly every section.

While the friends of Senator Bard have little doubt as to the outcome of the coming contest, they feel a decided interest because of the peculiar circumstances surrounding it and the great bearing it will have in the selection of a United States Senator. They are in deadly earnest and will present a solid front for their idol on primary day. They will not admit for a moment that it is within the range of possibility to encompass the defeat of Bard. Nor does it look that way to a disinterested person.

Everything is shipshape for the Bard fight. Delegates have long since been chosen to be voted upon, but their names have not been made public by the Bard lieutenants. Nor has it been any trouble to get Bard delegates. The only work has been to pick names of men who would best combine all the elements in the voting. In this respect the Oxnard people have been handicapped. There has been such worry over getting men to stand for Oxnard against Bard that in many precincts there will be no Oxnard delegates presented, while in other precincts the Oxnard men have been compelled to fill out their tickets with Bard men, and thus make an attempt to divide the delegations by throwing a sop to Bard men who did not happen to get upon the Bard ticket. Great difficulty has been experienced in Ventura town in getting Oxnard delegates and yesterday Mr. Oxnard was here in person. While he kept to his hotel, his lieutenant and candidate for the Assembly, Maj. Driffill, did some pretty lively work. It is stated also that strong Bard men were approached for conture. The time prophecy, showing tures to have their names used on the Oxnard ticket in this city.

The Oxnard people based considerable hope on trading in the fights for Supervisors in three districts in the county. They saw rare possibilities for combines in convention work and also at the polls, but the Bard managers took this crumb of comfort from them by segregating the two fights. There will be separate primaries and a separate convention for the choice of Supervisorial candidates. This the County Central Committee decided upon by a very decisive vote, and in this little set-to committee the Bard people showed such unusual strength that it was as much of a dampener upon the sugar people as was the separation of the local from the Senatorial combat.

In the new town of Oxnard there are many new people. The Oxnard interests there, where everything is under the shadow of the great sugar factory, are paramount, and it is not to be wondered at that the sugar man has a following in that section. In one Hueneme precinct, where Mr. Oxnard has a residence, but where he has never voted, the beet-sugar company owns a ranch of thousands of acres, upon which are employed hundreds of men. Mr. Oxnard will also show strength there, butoutside these two sections it is considered the Oxnard strength is nil. In these sugar-factory precincts the delegates chosen will make but a meager showing among the ninety-three delegates which will make up the convention.

In the county elections the factory has always taken a lively interest and for this reason a few politicians and officeholders are found for Oxnard in other sections of the county. Then there are a few others who have personal grievances. In his long residence in the county Senator Bard, in his battle for the right (and his battles have always been for the right,) has occasionally stepped upon the toes of some politician and left him disgruntled.

The whole Oxnard strength comes in the above ways. Opposed to it is the balance of the county. The Bard people are not taking anything for granted, however, and the biggest vote ever cast at a primary election in the county is looked for on Tuesday.

There are rumors that Flint strikers from Los Angeles will butt in here on a pretense of seeking to help Oxnard; but both sides are prepared to give them a cold shoulder. Oxnard told a friend here yesterday that he was very suspicious of the campaigning that is ostensibly being done for him in certain quarters in Los Angeles. He knows these shouters are Flint men at heart who are pretending to help him for the mere purpose of creating a division and perhaps seeking later to pull his leg. He is "wise," he tells his managers here, and will fool some of these fakers.

SANTA ANA.

FLINT-WARD COMBINATION.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SANTA ANA, July 24.—M. L. Ward of San Diego, the opponent of Senator S. C. TRAIN PARTS, BOYS KILLE[illegible]

Sad and Sudden End of [illegible] Erratic Enterprise.

Wreck on Southern Pacific Near Newhall.

Two Afflicted Homes Today in Los Angeles.

While rattling down grade at a high rate of speed near Newhall a long train of empty cars parted in the middle at 1:10 o'clock yesterday morning, ditching five cars, killing two messenger boys and seriously injuring a youth[illegible]

The dead are: Roy Henry and Fran[illegible] McGuire, both of whom have relatives in this city.

Clinton Dyer's ankle was broken and he was badly bruised about the head and shoulders.

A light engine bearing Dr. Wheat, the company's physician, was hurried to the scene of the accident from Newhall and the wrecker was sent out from Los Angeles. The bodies of the two boys were brought to this city on an early morning train and lie at Pierce Bros.' morgue, where an inquest will be held this morning at 9 o'clock.

Dissatisfied with work in Los Angeles, the two lads, who were employed by the California District Messenger Company, decided to try their luck in Santa Barbara or possibly continue to Fresno and apply for positions as fruit cutters. They jumped the midnight freight out of Dyer Station. They fell in with the youth, Dyer, who at the first stop endeavored to persuade the messenger boys to climb into an empty car for the rest of the run, but they were afraid to do this and remained in standing positions between two cars. When the train parted the rear section cars were jammed together so violently that five of them left the rails, their being almost totally demolished. The unfortunate adventurers were crushed beyond recognition, and the inmate of the box car was pitched about like a pea in an empty pod and finally tossed into a mass of splintered wreckage.

Roy Henry had been living with his mother at No. 426½ South Hope street, and resigned his position with the messenger office one week ago. He hung about the place for several days and tried to get several of the boys to "cut away from the town" with him. Finally McGuire was influenced to go and resigned Saturday after receiving his pay. This boy was the son of Mr. and Mrs. John McGuire, who reside at No. 4 College Place. His father is a carpenter. Deep is the sorrow in both households over the sad ending of the venturesome trip of the sons. They were about 16 or 17 years old and were both well spoken of yesterday by their former employer, who visited the morgue to identify the bodies.

Dyer lies in the receiving hospital in a dangerous condition, but will recover. He says that the only reason he is living is that he refused to remain between the cars.

No clear explanation of the cause of the accident can be given by the railroad company, but it is thought that a coupling pin broke in a sudden jerk of the engine and the cars behind crowded into the front "empties" of a loose section. Travel over the line was delayed about two hours.

TALKS WITH TRAVELERS.

W. E. Rogers, New Yorker, who has been studying civic and religious conditions abroad for the past three years, is returning to his eastern home, via California. Yesterday he was in Los Angeles, and said: "The time is ripe in the Orient for a change in thought, politics and complete manner of living. Christianity is about to Occidentalize the Oriental, and make of him a new being.

"Of course, I do not mean that such a change will come suddenly. The great masses of people dance in their ignorance of the verities of life, may be just as ignorant twenty years from now. Yet, light will have crept into the outside, and the thinking men of every country will have adopted Christian civilization, if not the Christian religion.

"One of the greatest factors in the [illegible] of modern ideas, I believe, will be the present Japanese-Russian War. For a thousand years China and India have been under the sway of darkness, and the cosmopolitan influence of alien ways, the influx of foreign ideas, and the constant presence of scholarly and educated men is bound to have a great influence in letting the light of intelligence shine in.

"Through all Asia I have seen an undercurrent of unrest. Poor creatures are thinking who have never thought before, and as they find their brains, they are asking the question our forefathers asked long since—whether, after all, priests and rulers are the gods of heaven.

"Christianization is reaching the educated class, and its effects are being slowly felt through the mediums of [illegible] governmental and political circles. The Emperor of Japan, whose face was once never seen, now rides out in daylight. Likewise the Dowager Empress Tsi An, guarded like a sacred creature from the skies, has been seen and painted by an American woman.

"Christian missionaries, commerce, the strife of nations—these are bringing about the subtle revolution of thought across the Pacific."

W. T. Ellis has just returned from the irrigation districts of Arizona, New Mexico and the southern counties of California, and proposes to go on another tour of the sections immediately. Mr. Ellis, who is greatly interested in irrigation, says that the results of the last two years, visible for instance in the Imperial country or the Braith district of New Mexico, are wonderful to behold.

Said he yesterday: "Water spells success in its highest degree in the [illegible] country districts of California [illegible] through the entire interior West. [illegible] can talk about the gold excitement of the early days, or the bonanza days of the North, but there is nothing to [illegible] grain soil with water on it for [illegible] established prosperity anywhere. [illegible] crops fail through water shortage, here after awhile? They are always getting rain enough high up in the mountains and conserved systems [illegible] send it down where it can do the most good on the lowlands. Millions of [illegible] are going to waste, and running [illegible] pending torrents to the sea now, [illegible] be saved for the farmer's purpose [illegible] years.

"Perhaps to the city people this talk [illegible] irrigation may seem an old [illegible] but if they could see the wonderful good it does and the tremen-

The dead are: Roy Henry and Frank Rhodes, both of whom have relatives in this city.

Charles Dyer's ankle was broken and he was badly bruised about the head and shoulders.

A light engine bearing Dr. Wheat, the company's physician, was hurried to the scene of the accident from Newhall and the wrecker was sent out from Los Angeles. The bodies of the dead boys were brought to this city on the early morning train and lie at Bryson-Bros.' morgue, where an inquest will be held this morning at 9 o'clock. The lads, who were employed by the California District Messenger Company, decided to try their luck in Santa Barbara, or possibly continue to Fresno in search for positions as fruit cutters, and jumped the midnight freight out of the Arcadia Station. They fell in with the boy, Dyer, who at the first stop endeavored to persuade the messenger boys to climb into an empty car for the rest of the run, but they were afraid to do this and remained in the coupling positions between two cars. When the train parted the rear section of cars were jammed together so violently that five of them left the rails, the car being almost totally demolished. The unfortunate adventurers were crushed beyond recognition, and the remnants of the box car was rattled about like a pea in an empty pod and finally reased into a mass of splintered timbers.

Roy Henry had been living with his mother at No. 420½ South Hope street, and resigned his position with the messenger office one week ago. He hung about the place for several days and tried to get several of the boys to "cut away from the town" with him. Finally Rhodes was influenced to go, and resigned Sunday after receiving his pay. The boy was the son of Mr. and Mrs. John Rhodes, who reside at No. 6 Cedar street. His father is a carpenter. Deep is the sorrow in both families over the sad ending of the wayward trip of the sons. They were about 16 or 17 years old, and were both well spoken of yesterday by their former employer, who visited the morgue to identify the bodies.

Dyer lies in the receiving hospital in a dangerous condition, but will recover. He says that the only reason for his being is that he refused to remain between the cars.

No other explanation of the cause of the accident can be given by the railroad company, but it is thought that a driving pin broke in a sudden jerk of the engine and the cars behind plunged into the front "empties" of the same section. Travel over the line was delayed about two hours.

TALKS WITH TRAVELERS.

T. E. Rogers, New Yorker, who has been studying civic and religious conditions abroad for the past three years, is returning to his eastern home, via California. Yesterday he was in Los Angeles, and said: "The time is ripe in the Orient for a change in thought, habits and complete manner of living. Christianity is about to Occidentalize the Oriental, and make of him a new being.

"Of course, I do not mean that such a change will come suddenly. The great masses of people, dense in their ignorance of the verities of life, may not be ignorant twenty years from now. Yet, light will have crept into the minds, and the thinking men of every country will have adopted Christian civilization, if not the Christian religion.

"One of the greatest factors in the spread of modern ideas, I believe, will be the present Japanese-Russian War. For a thousand years China and India have been under the sway of darkness, and the cosmopolitan influence of alien ideas, the influx of foreign ideas, and the constant presence of scholarly and learned men is bound to have a great effect in letting the light of intelligence shine in.

"Through all Asia I have seen an undercurrent of unrest. Poor creatures are thinking who have never thought before, and as they find their brains, they are asking the question our forefathers asked long since—whether, after all, priests and rulers are the vicegerents of heaven.

"Civilization is reaching the educated class, and its effects are being slowly felt through the mediums of the governmental and political circles. The Emperor of Japan, whose face was once never seen, now rides abroad in daylight. Likewise the Dowager Empress Tsi An, guarded like a sacred creature from the skies, has been seen and painted by an American artist.

"Christian missionaries, commerce, the strife of nations—these are doing about the subtle revolution of thought across the Pacific."

W. T. Ellis has just returned from the irrigation districts of Arizona, New Mexico and the southern counties of California, and proposes to go on another tour of the sections immediately. Mr. Ellis, who is greatly interested in irrigation, says that the results of the past two years, visible for instance in the Imperial country or the Braith district of New Mexico, are wonderful to behold.

Said he yesterday: "Water spells success in its highest degree in the country districts of California through the entire interior West. You can talk about the gold excitement of the early days, or the bonanza days of the North, but there is nothing in the world with water on it for well established prosperity anywhere. What if crops fail through water shortage here after awhile? They are getting rain enough high up in the mountains and conserved systems will send it down where it can do the most good on the lowlands. Millions of dollars' worth of torrents to the sea now, going to waste, and running to waste, may be saved for the farmer's purpose hereafter.

"Perhaps to the city people this talk of irrigation may seem an old story, but if they could see the wonderful changes and the tremendous value to the country, they wouldn't think it a bore.

"Congressional influence is all we want now. With this, we feel certain of high success. Give us appropriations and we will make of the West another world."

ODD FELLOWS.

New Lodge to be Instituted at University With Large Membership. Rebekahs Too.

The Independent Order of Odd Fellows is planning to institute a lodge at University.

The movement is backed by several of the most influential business and professional citizens of the place and it is said that between 100 and 150 men are already pledged to join the order.

Temporary organization of the new lodge will be made Thursday night and in about three or four weeks the promoters hope to institute a permanent organization.

Ryan's Hall, corner of Jefferson street and Wesley avenue, has been leased for one year, at the expiration of which time, if present plans do not miscarry, the organization will build a substantial home of its own.

There are twenty-eight I.O.O.F. lodges in Los Angeles county, and before permanent organization is effected it will be necessary to secure the consent of three-fourths of these lodges. Nearly one-half of the lodges required have already given their consent to the new enterprise and the committee anticipates no difficulty along this line.

Dr. W. H. Palmer of West Thirty-seventh street is acting as secretary of the organization committee and all of the committee meetings have been held at his home.

The new organization will probably be named University Lodge.

As soon as the new lodge is well started a Rebekah lodge, the women's auxiliary, will be instituted.

Two Department Clerks.

Over half a century ago a French refugee of aristocratic lineage left France and went to the East Indies. There he remained a few years and then emigrated to the United States. He finally settled in Baltimore. He brought with him to this country besides his immediate family an East Indian negro as his slave and body servant. Later on the slave was given his freedom. Today in the Bureau of Pensions a young white man and a young black man sit at adjoining desks performing the same class of clerical duties. The white man is the grandson of the French refugee and the black man is the grandson of the slave of the French refugee. Both are excellent clerks and apparently of equal ability. Few of their colleagues know of this chain of circumstances.—[Bos-

Coulter Dry Goods Co.

Clean-up of $1 to $1.50 wool dress stuffs at .. 75c

We have sorted out, for Monday's and Tuesday's selling, several of the season's most popular weaves in which we haven't the full range of colorings, a short-coming that may seem trivial to you, but good stock-keepers won't tolerate such a condition of affairs.

No question about this reduction righting matters.

Mohairs, Basket cloths, Mistrals, Cheviots, Serges, Scotch and English suitings, in plaids, checks, smart mixtures and black, of the grades regularly sold at $1.00 to $1.50 for 75c.

Nun's Veiling and Crape Egyptas, full 46 in. wide, in blues, browns, tans, reds, champagne, light blue, grays and pink—regularly $1.00 a yd.—today and Tuesday 75c.

Last week of the Blanket sale

And the week's offerings, in a way, put a premium on tardiness—better values now than at any other time during the sale, because of farther reductions on several dozen blankets that show some effects of handling. Mere beauty-hurts—none are so badly soiled that they need laundering. Quarter or more under actual value.

Fleeced Blankets
White with colored borders.
10-4 size, $1 values, 75c a pair.
11-4 size, $1.25 value, $1 a pair.
11-4 size, $1.85 value, $1.50 a pair.

Wool Mixed Blankets
11-4 size, $3 and $3.50 values, now $2.15 and $2.55 a pair.
10-4 size, $4.25 value, $2.90 pair.

Fine White Wool Blankets
All in full eleven-quarter size, weighing five pounds to the pair.
The $4.50 blankets now $3.15.
The $5.00 blankets now $3.45.
The $6.50 blankets now $4.35.
The $7.50 blankets now $5.45.

Wash stuffs reduced 1-3 to 1-2

Coulter's acknowledged leadership in wash goods selling has been won through unequalled value giving. Now, with only a small part of their wearing season gone, prices on many of the most desirable fabrics are third to half off—making values that will leave the most exacting shopper nothing to wish for.

At 15c—Genuine Anderson Zephyrs of the 25c grade—especially desirable for shirt-waist suits, dresses, men's outing shirts and children's garments; 32 inches wide.

At 12½c—Lot of our regular 20c white goods in lace stripe effects, fancy checks, brocades and fancy weaves in piques.

At 15c—Cotton Pongees and fancy suitings, for beach and mountain wear, that have been 35c. Splendid variety of snowflake, checks, dots and striped patterns.

At 10c—Lot of 15c lawns in green, tan white, blue, pink and black grounds with pretty Oriental and Persian designs.

Sale of $1 and $1.25 colored silks at . . . 85c

Faultless fabrics from our own regular stocks—not the sorts that are made up for "sale" purposes.

Solid colors as well as fancies—and the "fancies" are in the small, neat designs now so popular among correctly-dressed women.

21-inch Peau de Soies, Louisenes and Peau de Cygnes in that delightfully soft finish now in such demand for shirt waist and tailor suits, skirts, etc. Solid colors—Lavender, Greys, Brown, Cardinal, Violet, Old Blue, Champagne, Reseda, Green, etc. $1.00 and $1.25 values now 85c yd.

21-inch Taffetas, Louisenes and Armures in dainty checks and small designs particularly desirable for shirt waist suits. Practically the same range of colorings as in the other lot, and the same price—85c a yard for the regular $1.00 and $1.25 values.

Undermuslins enticingly priced

Skirts and gowns from our regular stocks—crisp, dainty cambrics and muslins tastefully trimmed with beautiful laces and embroidery—garments that appeal to women of refined taste, not coarse, "showy" patterns. And the reductions are real, not fancied.

$1.75 skirts $1.35:
Half-dozen new styles in muslin and cambric; some trimmed with tucks and embroidery, some with fine lace, some hemstitched. All cut generously full and carefully sewn and finished.

$1 gowns 75c:
One style is of good muslin; V-neck, yoke of hemstitched tucks and ruffle; ruffled cuffs.

$1.25 gowns $1.00:
Five styles in cambric and muslin, lace and embroidery trimmed; one style is of cambric with square yoke of hemstitched tucks and val. lace insertion.

$1.75 gowns $1.35:
Four styles, muslin and cambric with lace, embroidery and ruffle trimming.

Above prices hold good for today and Tuesday only.

New line of corset covers just opened—50c to $5.00—exceptional values.

Pillow tops, cords, etc. at half
Here's news that will please industrious women who want to do something useful while on vacation.

24-inch pillow-tops in rich poster and floral designs; regularly 35c to 75c, at 25c.

All pillow cords at just half usual prices—10c cords at 5c yard; 15c cords 7½c yard, and 20c cords 10c yard.

Pillow ruffles at half—44-yard ruffles at 75c instead of $1.50; $2.00 ruffles at $1.00; $3.00 ruffles at $1.50.

Jewels at 5c dozen instead of 10c; the 20c sorts at 10c dozen, and so on.

20c to 40c Embroideries 15c
Part pieces that must be gotten out of the way of incoming fall stocks, even though they are just as attractive in every way as the new ones can possibly be. Dozens of dainty patterns in the widths you want for underwear and children's garments.

25c to 50c Laces, dozen yards..... 15c
White Valenciennes, Torchon and Insertions to match, the narrow widths (¾ to 1¼ inches) and dainty patterns suitable for undermuslins and children's wear—15c per dozen yards; regularly 25c to 50c.

Broken lines of Standard 50c to $1.00 dress shields at 25c a pair.

SCHOLARSHIP CONTEST.

BAREFOOT BOY WITH LARGE AMBITION.

"Blessings on thee, little man,
Barefoot boy with cheeks of tan,
With thy turned-up pantaloons
And thy merry whistled tunes."

These familiar lines of Whittier may well be applied to Charles McCarty, the youngest of the scholarship contestants. Charles is only 11 years old, and he is not very large for his age. Although but little more than knee-high to a duck, he has a large ambition. He wants to win a scholarship in the Los Angeles Military Academy. The fighting qualities of a soldier are not judged by his stature. Look at the Japs, for instance; they are an undersized race, but they seem to get there just the same. So it is with Charley McCarty. He is a mere pigmy in stature alongside of such giants as Halsey Thompson and Frank Dunwell, who are but a few years his senior, but he is making just as gallant a struggle to win a scholarship as those big chaps. Charley is as bright as a dollar fresh from the mint, and as polite as a Chesterfield, although he exercises the prerogative of the small boy by going barefoot during this warm summer weather. He lives at No. 150 North Alta street, and as he is the only candidate for a scholarship from East Los Angeles, he expects, and is receiving, the support of the people of the East Side pretty generally. Last year his chum and neighbor, Aubrey St. Clair, won a scholarship in the Los Angeles Military Academy, and was so well pleased with it that it encouraged Master McCarty to enter the race for the same scholarship this year. There are several other boys trying for the same prize, so Charley's friends will have to rally to his support if they expect to see him win. Give the barefoot boy a lift. Some day he may be the commander-in-chief of the United States Army, if he begins his military training now, then you will be glad that you helped him to get his start. It is from the ranks of the barefoot boys that the world recruits its men of action. Think of the host of distinguished men who began their careers as barefoot boys!

NEARING THE MIDDLE.

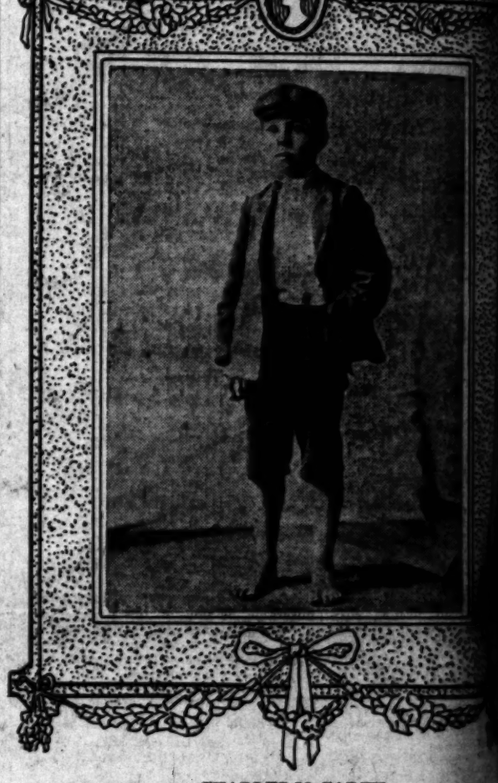
Four weeks of the scholarship contest are now in the past, and but five or six weeks remain to bring it to a conclusion. It has not yet been fully decided whether it will be brought to a close on the last Saturday in August (the 27th) or the last day of August, (Wednesday, the 31st,) or the first Saturday in September (the 3rd day of the month.) Whether it will be kept open for nine or ten full weeks will depend somewhat upon the promptness with which the contestants get in their votes. More time is always wanted toward the close to complete the scores, and as many subscriptions are renewed on or about the first day of each month, the contestants usually like the contest to remain open a few days in September, so as to get the benefit of the many renewals made about that date. The exact date of closing will be determined about the middle of August, when due notice will be given, so that all the contestants and their friends can govern themselves accordingly. In the meantime let all who intend to help a contestant by prepaying a subscription to The Times, do so with as little delay as possible, so as to make sure that the votes will get in in time to be counted.

MAKE A NOTE OF THIS.

Contestants and subscribers will please take notice that, as the month of July is now so near past, scholarship credits will no longer be allowed on subscriptions for the month of July, unless payment is made for at least one month in advance. That is, any subscriber paying this week for a single month's subscription dating from the first of the month, will not be entitled to any scholarship votes. A subscriber who has paid for July, and now pays in advance for the month of August, will be entitled to cast twenty-five votes for his favorite in the scholarship contest. A subscriber who pays for the month of July and prepays for the month of August at the same time will be entitled to sixty votes for the two months.

A new subscription, prepaid, counts for just twice as many points in the scholarship score, as payment on account of an old subscription for the same period. The contestants making the highest scores are those who get the most prepaid yearly subscriptions. One or two new yearlies a day, counting 1000 points each, make a score grow rapidly. Some of the leaders in the contest owe their success largely to their ability to get new subscriptions. Renewals for a year, which count 500 points each, also figure largely in the big scores that are being made. The contestants with the low scores should prevail upon their friends to pay up for a year instead of only one month, as so many of them do. A dozen subscriptions paid in advance for one year, would soon put some of the candidates who have been gradually falling behind, well to the front again.

Those who have been devoting most of their time to collecting coupons and soliciting subscriptions for short terms, should change their tactics and hunt up the yearly subscribers. There are plenty of them who prefer to pay for six months or a year at a time, so as not to be bothered by the monthly collections. One of the contestants last year got five subscribers to pay up for five years. Several have already gotten prepaid subscriptions for two years in the present contest. Who will be first to get one for five years in this contest?



CHARLES McCARTY.

STILL BREAKING RECORDS.

The scores made to date still continue to be higher than at the corresponding date in last year's contest. One year ago today Jeannette Bower of Pasadena was in the lead with a score of 33,197, while Lula Briant, the leader at present, has a recorded score of 46,102, and the probabilities are that she has several thousand more stored away for use in case of emergency the coming week. Harry Leftwich and Louis Bristol also have considerably more points to their credit than the leader had a year ago, while Halsey Thompson, the Pasadena candidate in the present contest, has just about 1000 less than Miss Bower had a year ago. This would make it appear that Pasadena is less loyal to her representative this year than last, but the fact is Miss Bower got about half of her support from other communities, while Master Thompson has received practically no outside support thus far. Miss Bower had good friends helping her in Los Angeles, Long Beach, Corona and elsewhere. Halsey Thompson has had scarcely any assistance in making his canvass other than that of his sister. Miss Hannah Thompson, who won a scholarship for herself last year.

The boys are keeping up their end well in the present contest, as shown by the fact that second, third and fourth places are now held by young gentlemen, and there are no surmise that Harry Leftwich in first place today if he has in all the points that he won last week.

TIGERS LOSE AGAIN.

[BY THE ASSOCIATED PRESS—P.M.]

PORTLAND (Or.) July 24.—Pitcher Thielman of Portland made a hit that scored one run, and in a wonderful exhibition of base running scored the second man which won an eleven-inning game from Tacoma today. In addition to this only once during the game did Tacoma bunch enough hits on him to score. Overall's pitching was splendid but his fielding and that of his support was at times slightly ragged. Attendance 5000. Score:

Portland, 2; hits, 10; errors, 1.
Tacoma, 1; hits, 5; errors, 1.
Batteries—Thielman and Shea; Overall and Graham.
Umpires—O'Connell and McDonald.

WEIMER IS HIT HARD.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, July 24.—The locals started in like winners today, but after Ames had been retired and replaced by McGinnity in the sixth, failed to score again. The visitors hit Weimer hard and scored five runs in three innings when Wicker relieved him. Attendance 27,000. Score:

Chicago, 4; hits, 11; errors, 2.
New York, 6; hits, 13; errors, 2.
Batteries—Weimer, Wicker and Kling; Ames, McGinnity, Warner and Bowerman.
Umpires—Emslie and O'Day.

BEAN BOLTERS BEATEN.

[BY THE ASSOCIATED PRESS—P.M.]

CINCINNATI, July 24.—Four bases on balls and five singles totalled the Cincinnati's six runs in the first inning. The handicap proved too much for the Bostons. Attendance 6100. Score:

Cincinnati, 11; hits, 16; errors, 1.
Boston, 4; hits, 7; errors, 3.
Batteries—Hahn and Schiel; McNichols and Needham.
Umpires—Moran and Carpenter.

EVEN DOUBLE-HEADER.

[BY THE ASSOCIATED PRESS—P.M.]

ST. LOUIS, July 24.—St. Louis and Philadelphia broke even on a double-header. McFarland out-pitched Frazer in the first, the home team hitting the Philadelphian hard. A batting rally off Nichols in the eighth inning won the second game for Philadelphia. Attendance 18,200. Score:

First game:
St. Louis, 10; hits, 17; errors, 1.
Philadelphia, 5; hits, 10; errors, 1.
Batteries—McFarland and Grady; Frazer and Roth.

Philadelphia	.320	Washington	.396

NOTES OF PLAYERS.

WHAT SOME ARE DOING.

With a dozen or fifteen hitters in the Coast league batting over .300 it don't seem that the foul strike rule is hurting anyone after all. What these .300 men could do without the rule can only be guessed at.

Hank the Penman will probably create a shake down in his 'Frisco team within the next two weeks; for he must improve in several ways if he wants to be in the race. He needs a first baseman, a shortstop and a third baseman.

The way the Portlands treated Tacoma on Friday and Saturday seems to indicate that the Tail-Enders might be a big factor in the second half of the season.

Local fans expect that Baum will develop into a fine pitcher next year. The majority of them think he has about everything but a strong constitution and that if he will take care of himself this winter he will take on weight and be a big man next year.

Dillon wants to come back to Los Angeles and the chances are that he will be seen on first base for the locals next season. He doesn't like the East and it is a safe bet that he will come for good after the big leagues close.

Phil Knell is one of the most foxy men in the ball business and it jarred his pride to be snapped out on that double play at first last week with the Has Beens.

Minor Baseball.

In a game at Pomona yesterday between the Tufts-Lyon team of this city and the Pomona club, the latter was defeated by a score of 9 to 4, the feature being the pitching of Pfirrman of the Tufts.

The Hamburger team of this city went to Ventura yesterday and lost to the Bean Town club by the score of 5 to 7.

At Los Nietos yesterday the Hoegee Flags of this city defeated the Rivera team, the score being 9 to 3. The batteries were Champion and Ireland and Lane and Broadbent.

The baseball team of the Modern Woodmen, from Los Angeles, defated the Ocean Parks yesterday. The score was 13 to 2. The batteries were: Woodmen, Hemis and Mageria; Ocean Parks, Cole and Coss.

HOT LACROSSE MATCH.

FREE-FOR-ALL FIGHT.

[BY THE ASSOCIATED PRESS—P.M.]

SEATTLE, July 24.—Robert Stuart of Portland has a fractured arm, C. Harrison Green a bad scalp wound, and George Oddy of Portland is badly battered up as the result of a lacrosse match here today. Oddy is said to have deliberately struck Green, the Seattle inside home player, after ten minutes of playing. Six stitches were taken in his head. Stuart got his injuries in a fall while running with the ball for the flags. Oddy was the center of a free-for-all fight in the third quarter of the game.

Seattle won the match, 4 to 3, and after the game the league delegates suspended Portland.

TARGET PRACTICE.

SOLDIERS TO CONTEST.

[BY DIRECT WIRE TO THE TIMES.]

PACIFIC GROVE, July 24.—[Exclusive Dispatch.] Two hundred of the best shots of the Pacific Coast division of the United States army have arrived at Ord Barracks to compete in this week's musketry contest. The victors in the competition will be sent East to shoot against teams selected from the eastern divisions, and the best individual marksmen in this final try-out will form an international team to shoot at Chicago. Maj. William Lassiter, Fifteenth Infantry, will be range officer in charge. He will be assisted by Capt. Willis Uline, Fifteenth; Capt. Houston V. Evans, Eighth, and Lieuts. A. J. Dougherty, Twenty-eighth; James E. Hannah, Tenth; Frank A. Arol, Fifteenth; Gustav A. Wieser, Fifteenth; James G. Taylor, Fifteenth; Morris C. Foot, Twenty-eighth; John S. Upham, Fifteenth; Raymond W. Briggs, statistical officer; Lieut. Robert E. Sillman, Fifteenth Cavalry.

Among the competing visitors are Maj. Van Vliet, Capts. Murphy, Lawton, Howard, Dean, Bradley and Lieuts. Cole, Rockwell, Sutherland, Wells, Patterson, Briggs and Hannah.

RUSSIAN POLO.

AMERICAN TEAM WINS.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, July 24.—Spencer F. Eddy, American Charge d'Affaires, and a team which included Secretaries Beaumont and Sperling of the British embassy, carried off the honors today in an international polo match between civilian and military officers at the picturesque Beloselsky grounds, outside St. Petersburg, by a score of 5 to 4. The military team included Princes Beloselsky and Cantacuzene, both of whom married American women.

Sir Charles Hardinge, the British Ambassador, presented four cups to Mr. Eddy and his men.

WATER POLO.

GAME OFF AVALON.

The second game of water polo, Avalon vs. Long Beach, was played yesterday afternoon in Avalon Bay, and attracted much interest, the players developing wonderful power and dexterity in the water. Avalon was again defated by the visitors, 3 to 1, but they showed much better form than in the previous game. The players were the following:

Long Beach		Avalon
Bert Barrett	Sprint	A. Glassell
H. Gallmer	1st guard	W. Artmore
Al Salisbury	1st guard	Don Fisher
Loomes	2d guard	C Cowen
Jerrue	2d guard	H. Cline
Will Allen	goal keeper	Whalen

Sig Hiller, referee; A. H. Splittstoesser, time keeper.

LAWN TENNIS.

SANTA MONICA PLAY.

Arrangements are well under way for the eighteenth consecutive annual tennis tournament, which will be held on the Casino court at Santa Monica, beginning August 2 and continuing throughout the week. The events will include all-comers singles and doubles, mixed doubles, ladies' singles and junior singles. The last two events will be either open or handicap as the players may decide and the junior will be for boys under 19 years.

Trial matches will be two in three and the finals three in five, except the ladies' events, which will be two in three all through, and all sets advantage. Entries for the junior singles will close Tuesday morning, August 2, and the open singles on the following morning. The men's open singles will begin Wednesday morning, August 3.

Lacrosse.

The members of the local lacrosse team and those who admire the game will have a meeting on Wednesday evening to reorganize the club, elect new officers and transact other necessary business. Definite arrangements will probably be made about playing the game at Santa Monica in the future.

UNDRESS ON OPEN STRAND.

Queer Antic of Family of — Three at Long Beach.

Guyed Unmercifully by Many Amused Spectators.

Sun Umbrella Serves Purpose of Adam and Eve.

The idle crowd lounging on the Long Beach sands had an interesting object lesson in economy yesterday afternoon, and the way in which the crowd sat up and took notice certainly indicated that the lesson was not without its effect.

In order to save the money necessary to hire dressing rooms in the bathhouse, a man, his wife and daughter calmly disrobed themselves on the beach, got into their bathing suits, and after a jolly swim in old ocean, again proceeded to make their costumes before the gaze of several hundred people.

There were those who wanted to call an officer and have the trio arrested, but the effrontery of the thing captured the crowd, and their "joshing" of the economical couple was not to be spoiled by having them dragged away by a policeman.

Using one of the little houses of the life-saving crew for a background, the husband held an umbrella out for one side of the triangle and stood himself as the third side of this frail screen, while his wife struggled out of her gown and into her scanty bathing attire. She then took the daughter through a like process, and after that mounted guard while the man got into his ocean togs. A like performance was carried on when they came out of the water.

Several hundred persons collected around the couple, and guyed them unmercifully; kodak fiends and camera hunters posed their tripods, but the swaying and always-moving crowd prevented their getting pictures.

When the trio emerged from their impromptu dressing-room it was seen that the man was attired in a swell summer suit, wore a Panama hat and swung a fine cane, while the woman had a costume that might well have been the envy of any of the feminine onlookers and wore a gold watch with a long neck chain.

WORK RUSHED.

New Branches of Long Beach Line Will be Running in Thirty Days.

Almost the entire construction and grading gangs of the Pacific Electric Railroad Company are busy completing the two branches of the Long Beach line, the western going to San Pedro and the eastern connecting with the new road to Huntington Beach and way stations. The latter is to be the direct route to Alamitos Bay, Bay City, Anaheim Landing, Huntington Beach, and finally Newport Beach. It is a short cut to the sea, straight as a die, and when completed will be one of the best pieces of work which the company has done. A long excavation is being made to enable the double-track line to pass under the Salt Lake road. From the train of the latter company it looks more like a canal than anything else, but the sloping banks are to be planted to flowers.

The Long Beach branches will be completed inside of thirty days.

BOY'S CLUB CONCERT.

The sale of reserved seats will open at the Union Pacific Railway office this morning for the musical, dramatic and athletic entertainment to be given next Thursday evening at Elks' Hall by the members of the Columbia Park Boys' Club of San Francisco.

HAYTIEN FINANCIAL SCANDAL.

PORT AU PRINCE, July 24.—M. Thezan, Minister of the Interior, has disappeared. An order for the Minister's arrest has been issued by the magistrate who has been investigating the issue last year of $200,000 in fraudulent securities of the national bank on the ground that M. Thezan was compromised in the frauds.

THIBETAN PEACE DELEGATES.

NAGARTSE (Thibet) July 20.—(Delayed in transmission.)—The Thibetan peace delegates met the British mission and professed a willingness to arrange peace, if the commission would return to Gyangtse. Col. Younghusband replied that he could only make peace at Lhassa, but that he was willing to discuss terms while proceeding there.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

MURDERER IS IN CUSTODY.

FUGITIVE MEXICAN CAPTURED NEAR THE BOUNDARY.

Arizona Officers Notify San Bernardino Sheriff that They Have Aguila Under Arrest—Important Mining Suit from Redlands—Santa Fe Workmen Quit Stockades.

SAN BERNARDINO, July 24.—Cleto Aguila, alias Raymondo Padilla, alias several other names, who a week ago tonight shot and killed Pedro Chaves at Colton and tried to murder the wife of his victim, has been captured and officers left tonight to bring him back to San Bernardino county for trial. He was arrested today at Naco on the Mexican border of Arizona, which he was making for Mexico and freedom. Sheriff Ralphs was immediately notified of the arrest and sent a telegram in reply urging that the man be held at all hazards.

Since the murder was committed Sheriff Ralphs has been working almost constantly upon the case. He interested peace officers in every hamlet in this part of the State in the case and sent out numerous circulars and pictures of the mudrerer. The capture of the murderer was the result of this work.

Chaves was shot from behind from ambush while he was going home with his wife last Sunday night, his murderer giving him no chance to defend himself.

CLAIM WAS JUMPED.

G. H. Dunn, Steven Peters and William Tisdale, all of Redlands, have commenced action against Henry Atkins, Mrs. Sadie Rooney and others to quiet title to the San Francisco mine, in the Crafton Hills, and to recover $350 damages. it is alleged in the complaint that during the absence of the plaintiffs, who set up a prior ownership of the mine, the defendants entered upon the property, destroyed mining tools to the value of the damages named, and took possession of the mine. Mixed up in the complications is the mysterious disappearance of a Mexican named Jesus Sanchez, who some weeks ago was sent to the mine to hold it for Mrs. Rooney. He has never been located, and the rumor is that he sold the property to several women and skipped out with the money.

FEAR NOTHING NOW.

The Santa Fé company has posted notices about the stockade requesting the new employés to use every effort to secure living quarters outside the yards, as the company desires the men to become citizens of the town as rapidly as possible. No time limit is fixed in which the men have to secure other homes than those furnished inside the stockade by the company. Already about two hundred of the new men are residing with their families about town, and several lodging-house keepers are building additions to their properties to accommodate others of the employés. Today about two hundred and fifty of the new men enjoyed an outing at Oceanside at the expense of the company, which furnished them a special train.

BRIEF NEWS NOTES.

The police last night arrested a tramp supposed to be insane. He was caught walking through town almost nude. He refused to give his name or discuss his affairs.

The San Bernardino county Prohibitionists have arranged to hold their nominating convention at Urbita Springs Friday, August 5. It is understood that Rev. C. J. Hall will make the principal address on that occasion.

Redlands capital has taken up the matter of building a hospital here to cost in the neighborhood of $15,000. The Marlborough Hospital has been bought and will be greatly increased in size.

The valuable horse belonging to D. Johnston of Colton, which was driven into a peatland fire a few days ago, had to be killed today, hope of its recovery having been abandoned. Johnston, who was also badly burned on that occasion, while able to transact business, is unable to walk, the soles of his feet having been almost cooked.

HEROISM OF AN ENGINEER.

At Risk of His Life He Saved Whole Trainload of People.

SAN BERNARDINO, July 24. Engineer Freeman of the Santa Fé Railroad saved the passengers of overland train No. 2 from an awful death last night in a manner which showed that in him is the stuff of which heroes are made. At the risk of his own life he twice braved a veritable hell of flames and prevented the destruction of his train and its precious load of human freight.

The train was eastbound and was loaded with hundreds of passengers, many of whom were en route to the St. Louis Exposition. While the train was at a standstill, the locomotive suddenly became enveloped in flames. Something had gone wrong with the oil feeder and there was no means of shutting off the flow of oil.

Freeman and his fireman, Shetterline, jumped for safety, but Freeman happened to think of the fact that the tank of the engine contained 2000 gallons of oil and if that exploded it would wreck the train and kill possibly every person aboard of it.

Unmindful of his own danger and despite the fact that the huge tank was covered with flames and threatened to explode every second he dashed between the locomotive and the mail car and uncoupled the engine. Then, with even greater heroism he sprang into the blazing cab, waded through burning oil and, reaching the throttle, sent the engine thundering down the track, stopping only when he had reached a point where it was safe to have the fire burn itself out without danger to surrounding property.

Not until then did he think of himself, and when he leaped from the cab he was so badly burned that it was with difficulty that he reached a place away from the fiercely-burning tank of oil. His burns are not such as to cause any uneasiness to his friends, and he will soon resume his duties. The passengers on the train did not know that they were in danger, and therefore could not thank their rescuer, but an official report of the incident has been sent to Santa Fé headquarters in Los Angeles.

REDLANDS.

ORANGE SEASON CLOSED.

REDLANDS, July 24.—The orange season of 1903-04 closed in Redlands Saturday, one car being packed by the Redlands Fruit Association and two from the Citrus Union house, No. 2. This practically closes the entire citrus shipments for the season, for although one of the houses may be opened again a little later to handle a few late lemons, there will not be over two cars in the lot. The total orange shipments for the season from Reulands is 3077 cars.

The shutting down of the houses for a few months does not mean idleness, however, for those managers who are not about to make additions of space or equipment are making a thorough overhauling of machinery and are attending to the annual house cleaning. The Gregory house will have new equipment; the Redlands Fruit Association is maturing plans for doubling the present capacity of the house before next season. The Orange Growers' Association will begin work soon on a third packing-house and plans are already in the hands of the contractors for the new house of the Golden Orange Association.

REDLANDS BRIEFS.

Mr. and Mrs. Fielding J. Stilson (née Violet Winter) have returned from their wedding trip and are visiting the parents of the bride, Mr. and Mrs. William Winter, at their summer home in Crafton.

The United Daughters of the Confederacy have organized a chapter in this city with Mrs. H. F. Wimberley as president; Mrs. W. H. Gosewisch of Los Angeles, a member of the State Organizing Committee, was present to direct the proceedings. The chapter has a membership of eighteen and will bear the name of John H. Morgan.

The successful candidates for promotion to the non-commissioned offices of Co. G, N.G.C., are Corp. Arthur J. Logsdon, Private Jesse Q. Lee, sergeants; Privates Fred C. Fowler, A. C. Jennings and H. G. Isbell, corporals.

J. H. Rolker of New York, representing one of the big eastern fruit brokers, is in Redlands and vicinity for the purpose of meeting the prominent fruit men, and arranging for handling part of the citrus output of this district next season.

Maj. and Mrs. E. T. Scott, who have been in Kansas several months lecturing in the interests of temperance, and who have spent the last two weeks at Long Beach, have returned to their home in this city.

Rev. William Patchett of San José is in Redlands, the guest of the Christian Endeavor Societies of the city. He addressed a large congregation in the Congregational Church this morning, his subject being "The Philosophy of Prayer." This evening all the young people's societies of the city joined in a mass meeting, at which Mr. Patchett spoke from the theme, "The Supreme Challenge."

Miss Grace I. Post of Sioux Falls, S. D., has been appointed assistant instructor in English in the local High School.

SANTA ANA.

SCHOOL STATISTICS.

SANTA ANA, July 24.—According to the annual statistical report of County Superintendent of Schools J. B. Nichols, the total amount of money received during the year for the maintenance of the county schools was $130,665.28, and the expenditures $116,688.37. Of the expenditures $83,591.41 went for teachers' salaries. The average monthly salary for principals of high schools was $132.75; for teachers of high schools, $102.75; for grammar school principals, $86.39; for grammar grade teachers, $71. There were 154 teachers employed in the county, and of this number 24 are men. The children of school age number 6800, of whom 5392 attended public schools, 385 attended private schools and 1023 attended no school. There are 15 deaf children in the county and 4374 that have never been vaccinated; 8672 are native born and 77 foreign born.

ACRES OF PICKLES.

James Rice of Tustin has conducted a successful experiment this year in raising green pickling cucumbers on the Rice ranch on the corner of First and Prospect avenues. A patch of six and a half acres was planted, and for weeks has been yielding an enormous crop. Japanese are employed to do the picking, and it requires a man to the acre to keep the cucumbers picked. As soon as the patch is once gone over it is ready to be picked again. The vegetables are sorted into three, four and five-inch sizes and shipped to Los Angeles.

HAS A BIG CONTRACT.

H. Clay Kellogg started today for Honolulu to complete a water engineering scheme to provide irrigation for the Wahiawa sugar plantation. The project involves the construction of a dam 120 feet long and requiring 60,000 yards of crushed rock in its building. A large storage reservoir and four stone tunnels 1000 feet in length are also to be built.

SANTA ANA BREVITIES.

J. G. Black is in the County Jail, charged with beating a board bill at the Richelieu Hotel. Black has been here for some time taking orders for pictures and was arrested last night at Fullerton by Constable Smithwick.

The apricot season at Smith's pitting camp on Depot street closed last night with a social evening, when the entire crew was treated to ices and cake, and outdoor games were played.

Ed Molino was fined $20 in the Township Court yesterday for battery on the person of Prospero Yanes. Molino hit Prospero over the head with a beer bottle.

Jacob Kaufman of Tacoma is the guest of his parents, Mr. and Mrs. D. L. Kaufman.

H. C. Dawes is home from a trip to Canada.

TAXPAYERS MUST PAY THE BILLS.

RIVERSIDE COURTHOUSE COSTS TWICE FIRST ESTIMATE.

With Total Disregard for Their Solemn Pledges Supervisors Piled up Expenses Until Building Became a Most Expensive Luxury. Charges of Grafting.

RIVERSIDE, July 24.—With the original figure of $150,000 climbing rapidly toward $290,000, it appears that Riverside county is to have the most expensive and luxurious Courthouse in the State of California, outside of the two cities of Los Angeles and San Francisco. The bonds were voted on July 8, 1902, by a vote of 1446 to 412, upon the following pledge of the Board of Supervisors: "We, the undersigned Supervisors of the county of Riverside, hereby expressly state that the sum of one hundred and fifty thousand dollars is sufficient to erect and properly furnish a suitable Courthouse for said county, and in no event will we exceed that sum if bonds are voted and sold for that purpose." This pledge was signed by Supervisors Lilly, Kimball, Craven, Shaver and Dunbar, and was of sufficient weight to convert many who would have voted against the bonds with those who feared exactly what has happened.

But for the rankling thought of these unwarranted breaches of faith, broken pledges and increased tax rates, the unlawful contracts and outgrowing suits for impeachment, the scandals and widespread notoriety, a citizen of Riverside county, to see the building in question, would consider it almost sacrilege to speak of the Courthouse and the Supervisors who built it in any but words of warmest praise. It is a beautiful building, a model of convenience, luxuriously furnished and inspiring in its grandeur and completeness throughout.

But instead of the originally planned $150,000, the amount is rapidly doubling itself. The original contracts, made before even the corner-stone was laid, amounted to $207,329, an amount over $57,000 in excess of the Supervisors' sworn pledge. This amount, coupled with the $20,000 paid for the site, and the $36,837.75 for the jail buildings, made the first total to confront the eyes of Riverside county taxpayers, $264,166.75. This, itimized, was as follows: Courthouse contract, $137,750; pressed brick contract, $22,530; furniture, $4960; metallic furniture, $27,086; oak furniture, $9788.50, and electric fixtures, $5214.

During the process of construction it was found necessary to make further contracts and extras in amounts as follows: First, vote for extras (changing glass, painting doors and cornice, cutting up cement floor and adding ari glass in large windows,) $3646; Inspector Carroll's wages (sixteen months at $200,) $3200; Reynolds's contract (carpets, linoleum, window shades, etc.,) $1122.75; Mott's contract (rubber matting,) $214; cement contract (curbing, coping, walks and steps,) $2182.04; extra electrical supplies, $149.50; improvement of grounds to date (extra dirt purchased, leveling, etc.,) $848; new water pipe connections, $59.60. These total $11,510.89, and added to the original contracts and expenses, bring the cost of the building to $275,687.64.

To this must yet be added the architect's fees of 5 per cent. for construction, which will figure not less than $9000. And the cost then appears in a grand total of almost $285,000.

And still the expenses mount upward. Only the crudest preliminary steps have been taken toward the improvement and beautification of the jail and Courthouse grounds, and when their extensiveness is considered, $5000 seems a small amount with which to do the work properly. Now is not the time to curtail expenses, nor have the Supervisors any idea of doing so. The beautiful building demands a beautiful setting, and while the Riverside county taxpayers looks at his tax list and gasps, the work continues and the grand total ever increases.

BIG RACE MEET.

Plans are being made by local horsemen and racing enthusiasts for a big meet at the Riverside Driving Park, to follow the great fair and race meet which concluded the circuit events for the season, to be held in Los Angeles about the middle of October. The Los Angeles meet will bring together the fastest horses in the State, and it is then proposed to attract the whole bunch to this city by the offer of heavy purses and desirable prizes.

NOTES IN BRIEF.

Riverside Temple, No. 12, Rathbone Sisters, will hold their annual picnic Tuesday at the home of Mrs. Ida Russell on Russell street.

The Salt Lake construction crew is at work putting in a switch and siding at Palm avenue to furnish accommodations for a number of paking-houses to be erected at that point.

The Universalist Church has planned its annual picnic for next Wednesday, and will hold it at Fairmount Park.

The services at All Saints' Church were conducted this morning by Bishop Hamilton of Ottawa.

FAMISHED ON THE DESERT.

Boy Died of Thirst Within Sight of Home.

Lost on Sandy Trail He Had Wandered for Days.

Body Found by Prospector and Taken to Mecca.

[BY DIRECT WIRE TO THE TIMES.]

MECCA (Cal.) July 24.—[Exclusive Dispatch.] Lying on his back under a tree, the face and hands blackened and blistered by the torrid sun until recognition was possible only by the clothing he wore and what they contained, the body of Robert Roach, aged 13, son of F. F. Roach, a Southern Pacific bridge carpenter, who resides two miles from Mecca, was found this morning. He had died of thirst after the most agonizing suffering, within a mile of plenty of water and almost within sight of his home.

The body was discovered by J. P. Reed, a grizzled old prospector, who has a camp in the foothills of Torres Mountain, twelve miles south of this place. Reed was coming to Mecca from his camp this morning, when he stumbled upon the body, and although he had known young Roach for several years and had had him at his camp many times, he did not recognize the body as that of his boy friend until he had examined what the pockets contained. Lying near the body was a saddle and blanket, bread and a glass jar of fruit. The tree under which these things were found was a small one and not sufficient to shield one from the rays of the sun. On its branches were found marks which indicated that the boy had climbed the tree to obtain a better view of the country and thus get his bearings. Whether in his weakness he fell out of the tree will never be known. It is possible that he may have been killed by the fall, but Reed is of the opinion that he died of thirst, although he had plenty of food.

Reed was last in town last Monday and the boy learned that he was going to return to camp the next day and asked to be permitted to accompany him. Consent was given and the next morning Reed started, thinking the boy had either given up the idea of going or would catch up with him. It is now known that he missed Reed at Mecca and started along his trail toward his camp.

That for days he wandered along under the burning sun is indicated by the fact that Reed found today the boy's tracks within half a mile of his camp. He had gone that far along the right road and thinking he had missed his way, turned back. On the return trip he wandered almost to his home and again turned back toward the camp. He had no canteen and throughout the long journey he was without water.

On Thursday his burro, unsaddled, returned to its corral, but the boy's mother thought nothing of its appearance, supposing her son had reached Reed's camp and that the burro had strayed from there. It is now believed that the burro wandered away from the lad when he made camp the first night out without water. How far the poor boy walked the next day on the burning sands and under the pitiless sun no one knows. It will never be known what anguish he suffered when for days he had no water, although within three miles of him were the trickling streams from artesian wells and only one mile from where he threw himself down to die, was his home, where there was everything which he could need. His blackened corpse indicates that he had been dead at least two days when found. It is believed the end came Thursday night or Friday, and a more horrible death can hardly be conceived.

The trail which the boy tried to follow lies between the Indian village of Martinez and the desert ranch of Maj. Peters. The Coroner of Riverside county has been notified and the boy's mother has been sent for.

The tragedy is but another terrible reminder of the dangers of desert travel at this season of the year. The temperature Tuesday and Wednesday was 108 deg., both days being partly cloudy with humidity far above normal, which made the heat seem to be more intense than even that high temperature.

Thoroughly Reliable

Not Guess Work.

Permanent cures can only be made by treating the EXACT CAUSE. Many are treated for conditions that do not exist and failure is the result. Have you tried many treatments? Have you been guessed at by mail? Could you exercise anything from unreliable methods but failure? When I treat any condition it will be with a knowledge of the cause and its effect. This is the only way to obtain a permanent cure, and certainty of a cure is what you want.

In functional derangement of the reproductive system my treatment restores perfect physiological conditions and establishes health throughout the organic system.

There are hundreds of cases which are materially benefited and cured in a short time by the use of my direct treatment, and especially those of sexual, nervous origins, which are dependent upon a chronic, inflammatory condition of the prostate, bladder and rectal diseases.

Many Who Are

Afflicted with chronic diseases, functional weakness, chronic prostatic and bladder troubles, rectal diseases, kidney and blood diseases, contracted disorders, strictures and varicocele—with my direct treatment I am confident I cure these troubles more quickly than anyone. You will note improvement from the first and a permanent cure will follow. It is the most effective known.

little, and the Roman Catholics a little—and every man who walks the earth a great deal.

"I am glad to be with you this morning," the speaker continued, "in this Palestine of America. God has rented a lot of His eastern country, but has come here to live himself. A man owns many houses, but among them is always one away up on the crest of the hill, surrounded with flowers and the things that make for pleasant living, and here the owner resides."

OTHER REALTY DEALS.

Warren Story, who recently came here from Redlands and has invested heavily in Pasadena realty, has just purchased the home of John Houseman at the corner of Peoria street and Fair Oaks avenue.

Sherman Stephens has bought of John Mayne of New York, three acres at the corner of Claremont place and El Molino avenue, and will improve it.

Mrs. Isabel C. Ewing has bought of A. A. Nissen, five acres in Altadena, at the northwest corner of Fair Oaks avenue and Palm street. The property adjoins the almond orchard and also the W. Scott Way place. It is planted to fruit. Mrs. Ewing will erect a handsome home on the tract.

PASADENA BREVITIES.

Mayor W. H. Vedder is planning a two months' vacation, which will be spent in the East. During August and September Councilman Matthew Slavin will serve as Mayor.

The funeral of W. H. Williamson was held yesterday afternoon from the residence, No. 733 Summit avenue. Mr. Williamson practiced law in Portland, Ind., twenty years, coming to Pasadena two years ago.

Net earnings from the sewer farm for the year ending June 30, $5021.94, making a total in the city treasury to the credit of the sewer farm, $11,446.94. Receipts for the fiscal year are given as $11,643.57, and expenditures, $6621.63. The walnut crop amounted to nearly $8000 700 walnut trees were planted this year, now making about one hundred acres of a walnut grove.

Fred Barrett, son of Mr. and Mrs. R. M. Barrett, No. 182 South Marengo avenue, was thrown from a bicycle and rendered unconscious by contact with a board which had been placed to mark a hole in the asphalt pavement on North Raymond avenue. His wheel was broken. Barrett was carried to a nearby house, where Dr. S. P. Swearingen attended him, and was later taken to his home.

Sunday offenders were seven in number. O. F. Allin, intoxicated; M. E. Corporon, failure to hitch his horse; Fred Hawkins, Louis Berrient, Thomas Elgie and A. Mourer, riding bicycles on sidewalks; Dorsey Stevens, leaving his horse unfettered.

CATALINA ISLAND.

RUSH OF SUNDAY VISITORS.

AVALON, July 24.—The season has been somewhat slower than usual, but yesterday's business seemed to indicate the gathering of the clans in earnest at Catalina. The schedule calls for four boats every Saturday and each boat brought a large passenger list, taxing the hotels, some of which were obliged to place cots in offices and parlors to accommodate their patrons. It made a lively time "in the old town" last night, the interest centering about the balls at the Metropole and the pavilion. Among the Los Angeles people who registered for over Sunday at the different hotels are the following:

SANTA MONICA.

BONDS FOR SEWER SYSTEM.

SANTA MONICA, July 24.—The City Trustees of Santa Monica disclaim any purpose of being ambitious to join Ocean Park and Playa del Rey in effecting a connection with the Los Angeles outfall sewer three miles below Playa del Rey. Quite to the contrary, this city has an expensive outfall sewer of its own under the pleasure pier on Pier avenue. This outfall is in need of repairs and the pending bond issue carries an item of $20,000 for that purpose. The trustees have already adopted a resolution of intention for the bond issue. The ordinance covering the budget has been prepared and will be introduced tomorrow night. This ordinance will no doubt be adopted in a week and provides for a bond election to be held at a date early in August.

NOTES FROM THE BEACH.

Santa Monica will arrange to welcome the cycle road racers and the accompanying excursions on Sunday, August 14. The band will be in attendance at the finish and the pleasures of the day's picnic will be otherwise enhanced.

The suggestion that a free street fair be held here during the fall has been made and will probably receive early consideration by the Municipal League.

Mrs. A. W. Rhodes, son and daughter, of Los Angeles, and J. W. Ward of Leavenworth, Kan., are at the Arcadia.

Mrs. M. Wickstrom and son, New York; Mrs. M. Reardon, Clifton, Ariz.; Mrs. A. V. Grossetta, Tucson, Ariz.; F. S. Scott and family, San Bernardino; Mrs. J. H. Cooper, Redlands, are at the Atlanta.

A. Zimmerman and family of Phoenix, Ariz., are spending the summer on Grand ave.

Mrs. H. W. Nisbet is here from San Bernardino, the guests of Mrs. W. H. Atwater.

SAN DIMAS.

BETTER DEMAND FOR LEMONS.

SAN DIMAS, July 24.—Thanks to the hot weather in the East, the lemon market has considerably improved. Eighteen carloads of lemons were shipped from here last week, and demands for San Dimas lemons are received by every mail.

STOPS THE NOISE.

Herschell B. Jones, chief engineer for the La Verne Land and Water Company, has invented a muffler for use in connection with gasoline engines, which will be hailed with delight by many people who reside near pumping plants or manufactories operated by gasoline engines. The noise of the explosion is often a matter of considerable annoyance to the neighbors, but this invention of Jones muffles all this completely, without any loss of power.

SAN DIMAS NOTES.

An important meeting of the officers of the Methodist Episcopal churches of San Dimas and Lordsburg will be held Tuesday night at the residence of J. B. Rutherford at Blink Bonnie Heights.

M. A. Rogers and family of La Verne are camping in Lyttle Creek Cañon.

A daughter was born yesterday to the wife of B. C. Stratton at La Verne.

Notice of Street Work.

Public notice is hereby given that on Monday, the 27th day of June, A.D. 1904, the Council of the City of Los Angeles, did, at its meeting on said day, adopt an Ordinance of Intention, Number 8079, New Series, to have the following work done, to wit:

Section 1. That it is the intention of the City Council of the City of Los Angeles to close up, vacate and abandon, for street purposes, all that portion of

THIRD STREET

in said city from the east line of Main street to the west line of the Bigelow Tract, including all intersections of streets (excepting the intersection of Third street with Central avenue and excepting also such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also excepting such portions as have already been paved with asphalt and accepted,) be paved with hydraulic cement and broken stone concrete base, with broken stone and asphaltic cement binder course, with asphalt wearing surface and with granite block gutters.

Said gutters are to extend along the north line of the roadway of said Third street from the east line of Main street to a point 5 feet west of the west line of Los Angeles street, and from the east line of Los Angeles street to a point 5 feet west of the west line of San Pedro street, and from a point 5 feet east of the east line of San Pedro street to a point 5 feet west of the west line of Central avenue, and from the east line of Central avenue to a point 5 feet west of the west line of Alameda street, and from a point 5 feet east of the east line of Alameda street to a point 5 feet west of the west line of Stephenson avenue, and from a point 5 feet east of the east line of Stephenson avenue to the west line of the Bigelow Tract, and around the curb return at the northeast corner of said Third street and Los Angeles street. Said gutters are to extend along the south line of the roadway of said Third street from the east line of Main street to a point 5 feet west of the west line of Los Angeles street, and from the east line of Los Angeles street to a point 5 feet west of the west line of San Pedro street, and from a point 5 feet east of the east line of San Pedro street to the west line of Crocker street, and from a point 5 feet east of the east line of Crocker street to a point 5 feet west of the west line of Central avenue, and from the east line of Central avenue to a point 5 feet west of the west line of Alameda street, and from a point 5 feet east of the east line of Alameda street to the west line of the Bigelow Tract, and around the curb return at the southeast corner of said Third street and Los Angeles street, and around the curb return at the southwest corner of said Third street and Crocker street. Said gutters are to extend along the north line of said Third street across each intersecting alley, and also across the intersection of said Third street with Boyd street, Hewitt street and Garey street.

Said gutters are to extend along the portions of said Third street described above, excepting along such portions of said Third street along which cement or granite curb gutters have already been constructed to the official line and grade.

Said gutters shall be three (3) feet in width across street and alley intersections, where said gutters shall be six (6) feet in width.

All of said work is to be done in accordance with the plans and profiles therefor on file in the office of the City Engineer of the City of Los Angeles, and in accordance with specifications for street paving with hydraulic cement and broken stone concrete base and asphalt wearing surface, Class A, said specifications being on file in the office of the City Clerk of the City of Los Angeles, and said specifications being No. 9 (New Series) adopted by Ordinance No. 8372 (New Series).

2nd. That a cement curb be constructed along each line of the roadway of said Third street, from the east curb line of Main street to the west line of the Bigelow Tract (excepting such portions of said street between said points along which a cement or asphalt curb has already been constructed to the official line and grade,) said curbs to be constructed in accordance with specifications for constructing cement curbs, on file in the office of the City Clerk, said specifications being No. 1 (New Series) and adopted by Ordinance No. 8372 (New Series.)

Drug Store is "Blind Pig."

Auton J. Mares, who keeps a drug store at the corner of Adams street and Central avenue, was arrested yesterday by Officers Alexander and Thornton for selling liquor on Sunday.

Newell to Lecture.

Rev. Dr. Newell of Moody's Bible Institute in Chicago will lecture this evening at the Second Presbyterian Church, corner Daly street and Downey avenue, on the subject of the Ecclesiastes.

Car of Hay Burns.

The fire department was called upon yesterday afternoon to save a box car of the Southern Pacific Company containing hay which was burning on Alameda street between Fourth and Fifth streets. The blaze is supposed to have been started by a tramp.

Will Return to His People.

The Methodists of Los Angeles and vicinity are raising funds to assist David Pakchoyan, the Christian Armenian, who graduated from the University of Southern California last June, to return to Armenia as a missionary to his own people.

Alvarado Street Blaze.

An overheated oven caused a fire in the residence of L. W. Alvermeyer, No. 144 North Alvarado street, yesterday morning while members of the family were out. When discovered the kitchen woodwork had become ignited, but the blaze was extinguished with small loss.

Struck by a Car.

T. J. Boston, an elderly man of No. 1710 Temple street, was injured in an accident at Watt Station on the Long Beach Electric line yesterday. Boston misjudged the speed of a Los Angeles bound car when he tried to drive a team across the tracks and his wagon was wrecked. He was thrown out and severely bruised.

Another Blind Pig.

The Hotel Europa, at No. 651 San Fernando street, was raided again last night and the proprietor, Dominick Vaira, was arrested on a charge of selling liquor without a license. "Blind pigs" have been caught at this place many times in the past, but heavy fines have failed to stop the practice. The officers say that Vaira had a complete bar in full blast.

Car of Hay Burned.

A pile of hay on the team track of the Southern Pacific Railway Company on Alameda street, between Fourth and Fifth streets, caught fire yesterday afternoon and the flames spread to a car of hay standing near by. The car and contents were destroyed. The fire was in a dangerous locality, and only quick work on the part of the firemen prevented a serious conflagration.

Barrymore Date.

It is now positively announced that the Ethel Barrymore engagement at the Mason Operahouse will be postponed, and Miss Barrymore is to rest at her old home in Santa Barbara. The engagement will probably be renewed some six weeks later, to open Miss Barrymore's fall season. Manager Wyatt has some very good attractions coming about the middle of August. Henry Miller for a week in repertoire is one of the coming engagements. The box office will not open this morning.

Drunk-roller.

Ed Whitson, known to the police as a drunk-roller and "hop-head," was found by Patrolman Zeigler bending over Edward Edberg, a gardener, of No. 136 East Eleventh street, in a South Spring-street doorway early yesterday morning. Whitson made a break for liberty when the officer tried to arrest him, but he was caught and taken to the Police Station. When searched a watch belonging to Edberg was found in his pocket. Edberg was very drunk and did not know that he had been robbed until several hours later.

Horse Through Bridge.

Car No. 91 of the Pacific Electric Macy-street line struck a horse and buggy at the corner of Macy and Anderson streets about 10:30 o'clock last night, throwing out J. W. Brownett, who sustained painful injuries. The horse ran down the hill and fell through the Macy-street bridge, wrecking the buggy. Brownett was removed to his home, No. 521 San Pedro street, where it was found that his hip had been dislocated and he had sustained a number of cuts and bruises. The horse was wedged in the supports of the bridge and was extricated after hard work.

McIvor-Tyndall.

A large audience greeted Dr. Alexander J. McIvor-Tyndall at Blanchard Hall yesterday afternoon. The speaker took for his subject, "The Psychic Wave," and discussed the great change which has taken place in the thought of the world during the past few years. According to the demonstrator, the beginning of the present century sees us emerging from the materialistic thought-wave into what may be termed a psychological stage, in which we are becoming conscious of a universal tendency to a higher plane of the universe. There is always a purpose apparent in evolution, and the purpose of the present change in thought seems to be to impress upon the human mind that external things are not all.

Brakeman's Violent Death.

Richard E. Roberts, a railroad worker who had many acquaintances here, was crushed to death Saturday morning near Los Gatos, in the northern part of the State, by falling between two cars of a moving freight train. He was employed as a brakeman on the narrow gauge railroad from Alameda southward, and was going about his duties when the accident befell him. The body was dragged for almost a quarter of a mile before it was rescued, and was shockingly mangled. The unfortunate trainman was but 27 years old and enjoyed a good reputation, personally and professionally, having formerly been in the employ of the Santa Fé at Needles. He leaves two brothers and two sisters here—W. T. Roberts, J. W. Roberts, Mrs. H. F. Griffen and Mrs. J. B. Halsey. The remains will be brought here tomorrow

Hogaboom Leaves Theater.

Another change in Los Angeles theatrical mangement is coming soon. August 6 Winfield Hogaboom will retire from his position as manger of the Grand Operahouse, on Main street, and will be succeeded by Thomas G. Baker, present advertising agent of the theater. Clarence Drown, representing the Stair & Havlin syndicate, lessees of the property, decided yesterday to accept Mr. Hogaboom's resignation, which will go into effect in about two weeks. Upon that date the present head of the house will have completed an exact year of service there. He came into control at the time of the Sanford company's engagement, which transformed the theater from the Orpheum to purposes of the legitimate, and has been in charge of its fortunes ever since. Mr. Hogaboom was recruited from the ranks of local newspaperdom, and after a vacation intends to enter newspaper work again.

Freakish Plant Growth.

At No. 849 and 851 West Fortieth street stands the double-plaster residence of Mrs. A. D. Crowell. It is a two-story structure, with an arched porch on each side, surrounded by a lawn and a number of climbing vines. On ascending the porch of No. 849 one is struck by what looks like a branch of moonflower vine about four feet long hanging over the top of the left side of the door casing, such as anybody might have fastened there; but the mind of the beholder turns to wonderment when he observes the freshness of the branch, covered as it is with numerous full-blown flowers, yet with no visible connection with the soil. Again, looking upon the corner of the roof of No. 851 about two feet clear of the edge one sees a patch of the same plant about four feet square also in liberal bloom. Glancing, however, on the west side of the porch at the latter number one sees a large moonflower vine of considerable height, and strange as it may appear, this vine is responsible for the two mysterious clusters spoken of. A branch of the vine has grown under the house from the west side about thirty feet to the doorway of No. 849, thence has forced its way between the outer and inner walls parallel to the door casing and found its way over the top while another branch of the same vine has thrust itself between the walls between two shingles, thence out upon the roof.

NO FLOWER ON STARK'S GRAVE.

HIS BURIAL PLACE YET TO BE DISCOVERED.

Maudlin Note Left by Early Morning Caller—Object of His Affections Was Not at Home at Two O'clock and He Asked for Brother for a Pallbearer.

"Put just one flower on my grave and I would like to have your brother act as pallbearer," wrote J. W. Stark of No. 527 South Los Angeles street to his sweetheart, Nettie Ceventes, when he called at her house yesterday morning about 2 o'clock and found her missing.

Then Stark wrote other letters asking that he be remembered while his lady love was enjoying herself at the beach, and intimated that he would die a martyr to unrequited love. Leaving the letters in a conspicuous place Stark then tore up his collars and cuffs, probably to indicate that he had had a severe struggle with himself, and took all of his sweetheart's spare clothing, after which he disappeared. Returning a short time later Miss Ceventes found the letters, and so certain was she that her lover had taken his own life that she ran into the street and hunted up a policeman. Patrolman Percy Held made a search for the missing man, but only succeeded in finding the woman's clothing, which had been hidden under the house.

At last accounts Miss Ceventes had not acceded to her lover's request about the flowers, for no grave could be found. The brother is holding himself in readiness to do the pallbearer act while waiting to hear from the Coroner. But there is nothing doing.

BAD RECEIPT, WORSE STUFF.

Whisky Certificate Man is Locked in Jail.

Police Capture an Alleged Confidence Operator.

Hiller Accused of Forgery and Other Offenses.

Harry Hiller, who is alleged to have been uttering fraudulent warehouse receipts for whisky in bond, was arrested at the Hotel Rosslyn yesterday by police detectives. He is held at the Police Station for forgery, while the San Francisco authorities are looking for him on a similar charge. Several offenses of this nature have been committed in the northern city, which the police say are chargeable to the nattily-dressed German.

While the local police have been on the lookout for Hiller for several weeks they had well-nigh given up hope of locating him in this city, as he was supposed to have gone further south. When the story of Hiller's latest escapade in selling a bogus warehouse receipt to a local liquor dealer was published yesterday morning, another victim, or rather prospective victim, saw the article and immediately telephoned to the police informing them that Hiller was still in the city. The man refused to give his name, but he stated that Hiller had recently approached him with a warehouse receipt which he wanted to sell, but he declined with thanks.

A search of the hotels by Detectives Baker, Ritch and Davis was rewarded by finding Hiller at the Rosslyn where he was registered under the name of H. Eptein of Bakersfield. Hiller had been at the hotel since July 11. The man on whom Hiller had passed the warehouse receipt was Peter Bissen, a saloonist of Seventh and Main streets. Bissen was notified of the arrest and he identified the man as the sleek stranger who had represented himself to be an agent for the York Distilling Company of New York and Louisville. Hiller is said to have been mixed up in many crooked deals in the East and in San Francisco. When the York Distilling Company people were advised by Bissen that he had paid $200 for one of their warehouse receipts, they wrote saying that that certificate was false, and that Hiller was wanted in a dozen or more Eastern cities for passing worthless receipts. The San Francisco police had advised the local authorities that they have a warrant for the arrest of Hiller on a charge of passing fictitious checks, and from that city also comes a story to the effect that the swindler was mixed up in the disappearance of a pocketbook containing $975. A. Silverstein of No. 116 McAllister street, San Francisco, an installment dealer, lost a purse at the St. Paul Hotel just as he was about to leave for a trip to Germany. Hiller had ingratiated himself with Silverstein, who had introduced him to several parties where checks had been cashed, and had come back marked "no funds." Although there is no direct evidence to connect Hiller with the loss of Silverstein's purse, detectives who have been working on the case are inclined to think that the gay liquor dealer is the guilty man.

When arrested yesterday, Hiller acknowledged that he had sold the certificate to Bissen, but denied that it was bogus. Bissen says that Hiller represented himself to be a son of the proprietor of the York Distilling Company when he sold the receipt. The transaction was made a month ago, but not until a week ago did Bissen suspect that anything was wrong.

The police think they have captured an exceptionally smooth swindler, who has been operating all over the country. Capt. Bradish will consult with the District-Attorney today regarding the prosecution of the man, and it will be determined whether Hiller will be arraigned here or turned over to the San Francisco officers.

THROUGH FLOOR DOWN GAS PIPE.

SLICK ESCAPE OF BOY INMATE OF DETENTION HOME.

Gets Out by Way of the Chandelier and the Stair Rail, Cutting Thick Board in Two With a Nail—Ingenious Little Prisoner of Twelve Years.

A twelve-year-old epileptic who has been cared for at the Detention Home for several months, and who has a habit of running away from the home of his parents at No. 141 West Thirty-eighth street, made his escape yesterday from the old County Jail, which is now the Detention Home. He did the job with the skill and shrewdness of a criminal.

Prying up the boards of the floor of the room in which he was locked, he lowered himself down by the gas fixture of the room below. He knew just where to make the hole and he also knew that the room underneath was open in its connection with the stairway. After his little acrobatic stunt on the chandelier he slid down the banisters and noiselessly slipped through the outside door, which had been left open while the attendants were at lunch.

"He is a frail, delicate boy," said Mrs. Pratt, the matron, yesterday. "We think a lot of him and give him extra care, but somehow his one idea is to get away. He studies it and is very tricky about it. He cut a thick board in two with a nail; it must have taken him long hours of tedious work to do it, and then he climbed down the gas pipe and ran away. When I heard that two boys had been killed while stealing a ride on a Southern Pacific train I was afraid that one of them was Percy. One time the little fellow rode on the brakebeam all the way to Pomona, and was taken off there by a trainman and sent back to Los Angeles. He is a good boy, but in spirit is a perfect little nomad."

Percy has not turned up at his parents' home, and no trace of him can be found.
